

COMBAT OPERATIONS CHEATSHEET

GURPS 4E · KNIGHTS OF THE OLD REPUBLIC CAMPAIGN

QUICK-REFERENCE BATTLE SCREEN · A3 · READS LEFT → RIGHT BY PHASE OF PLAY
RECONCILED TO **STAR WARS THE OLD REPUBLIC — GURPS 4E CONVERSION**
REV 2 ION-CLASS SKILLS · METRIC (1 M = 1 HEX) · DAMAGE CHAIN & ARMOUR DIVISOR · **SIDE B: SHIP & DROID COMPONENT COMBAT**

① · ② · ③ · ④ · ⑤ · ⑥ THE TURN — COMBAT MANEUVERS					
Turn order: highest Basic Speed (HT+DX)+4 first; tie → higher DX, then 1d6. Surprised side acts after & may only Do Nothing with no active defences (DR still applies); Combat Reflexes negates the freeze. Pick ONE maneuver (Blocks ①–③), then layer modifiers (④ attacks; ⑤–⑥ defences). Use: M melee · R ranged · M+R both · MA Martial-Arts technique.					
MANEUVER / MODIFIER	USE	NOTES	MOVE	DEFENCE	
④ ALL-OUT ATTACK — sacrifice ALL active defences for a better attack. Step or full Move. HOUSE offensive QA / SR & Fast-Draw stay legal; defensive ones do not.					
AoA (Determined)	M+R	+4 to hit. Single attack.	Half	None	
AoA (Strong)	M	+2 dmg or +1/die if better. Thr/sw only — not force swords.	Half	None	
AoA (Double)	M+R	Two attacks, same/different targets. May swap one slot for Rapid Strike, DWA, or Feint.	Half	None	
AoA (Feint)	M	Free Feint, then a normal Attack with the margin applying. Same target.	Half	None	
AoA (Long) MA	M	Reach +1 for the attack, no hit penalty. Swing –2 dmg / –1 per die.	Half	None	
⑤ ALL-OUT DEFENCE — sacrifice your attack to focus on defence. Step permitted.					
AoD (Increased)	M+R	+2 to ONE chosen Active Defence.	Step	+2 one	
AoD (Increased) — Balanced MA	M+R	Alternative: +1 to TWO different defence types instead of +2 to one.	Step	+1 two	
AoD (Double)	M+R	Two Active Defences vs the SAME attack. Different types, or two parries w/ different weapons. Not two Dodges. 2nd takes multi-def penalty.	Step	2 def/atk	
⑥ STANDARD MANEUVERS — normal one-attack or non-attack maneuvers. Defences normal.					
Attack	M+R	One attack with any ready weapon. May add Block ④ modifiers.	Step	Any	
Defensive Attack MA	M	One attack at –2 dmg (or –1/die, worse). Pick ONE: +1 to one defence; OR +2 vs Leg Grapples & +2 DX vs falling on kicks; OR parry with same balanced weapon used to attack.	Step	Any +1 one	
Committed Attack (Det.) MA	M	One melee attack +2 hit. Step or 2 steps (2nd → –2 hit). Attacking limb can't defend; other defences –2. No retreat.	Step x2	–2 / 0	
Committed Attack (Strong) MA	M	One melee attack at normal skill, +1 dmg. Thr/sw — not force swords. Movement & defence as Det.	Step x2	–2 / 0	
Move and Attack	M+R	Full Move + one attack. Melee skill cap 9 (or DX+2). Ranged –2 or Bulk (worse). No retreat. No Rapid Strike.	Full	Dodge/Block	
Aim	R	+Acc 1st turn, +1 each 2nd & 3rd (cap +2 over Acc). Spoiled if you defend (Will roll to retain).	Step	Any*	
Evaluate	M	+1 (1t) / +2 (2t) / +3 (3t+) on next attack. Cancels foe Deceptive on YOUR defence until you attack.	Step	Any	
Feint	M	QC best Melee/Unarmed/Cloak (or DX) vs their best weapon skill or DX. Your winning margin = the penalty to ONE of their active defences vs your next attack (next turn). Defensive Feint: that penalty instead applies to their next attack on you.	Step	Any	
Move	M+R	Run at full Move. +1 sprint bonus on consecutive running turns.	Full	Any	
Change Posture	M+R	Stand / sit / kneel / crawl / prone / face-up.	None	Any	
Ready	M+R	Draw, reload, change grip/reach, clear a jam, prepare an item.	Step	Any	
Concentrate SW	M+R	Sustained mental effort — required for Force powers tagged Concentrate. If hit, Will roll or lose concentration AND any FP spent.	Step	Any*	
Wait	M+R	Wait for a trigger: fires before the triggering action. Move & Defence per the specified action.	None*	*	
Do Nothing	M+R	Start of combat or when stunned. Defence –4 if stunned. HT/IQ to recover.	None	Any*	
④ ATTACK MODIFIERS — layer WITHIN an Attack / Committed / AoA / Defensive / M&A maneuver. Melee-only: Deceptive, Rapid Strike, Beat, Ruse, Combination.					
Deceptive Attack	M	–2 hit → –1 to foe's defence (no cap beyond skill). Stacks w/ Targeted, Committed, AoA. Contradicts Telegraphic. Evaluate cancels it on YOUR defence (net 0).	*	*	
Dual-Weapon Attack	M+R	Two attacks, one per hand, each –4 (–8 off-hand without Ambidexterity / Off-Hand Training). Cannot combine w/ Rapid Strike same turn.	*	*	
Rapid Strike	M	Two attacks, single weapon (or unarmed), each –6 (–3 w/ TbaM or WM). Melee only — for ranged use RoF.	*	*	
Targeted Attack	M+R	Aim for a specific hit location (penalty per chart). Would effects apply there. Repeating same target → +1 to their defence on 3rd+ try.	*	*	
Telegraphic Attack	M+R	+4 hit; target gets +2 defence. Stacks w/ Rapid Strike, Targeted, Committed. Contradicts Deceptive.	*	*	
Wild Swing	M+R	Skill capped at 9; attack a target you cannot clearly see (rear, dark, obscured).	*	*	
Beat MA	M	Within Feint: QC your ST-based weapon skill vs their ST/DX weapon skill. Win → ONE named defence penalised by your margin , vs ALL attackers, until end of your next turn. Requires you parried them (or vice-versa) last turn, or they're grappled.	*	*	
Ruse MA	M	Within Feint: QC your IQ-based weapon skill vs their Per-skill / DX-skill / Tactics. Win → ONE defence penalised by your margin , vs your next attack only.	*	*	
Combination MA	M	Trained multi-strike sequence. Buys off Rapid Strike penalty per level. One per maneuver max. Not w/ M&A.	*	*	
⑤ DEFENCE OPTIONS — avoid, mitigate, or eat the attack. Once per turn unless noted.					
Retreat (Any)	M+R	Step 1 m back. +3 Dodge or fencing/Box/Judo/Karate Parry; +1 other Parry/Block. Costs your step. Not vs a grapple.	*	*	
Acrobatic Dodge	M+R	Roll Acrobatics → +2 Dodge on success, –2 on failure. Crit fail: fall. Once/turn.	*	*	
Feverish Defence MA	M+R	Spend 1 FP → +2 to one defence. Once/turn. Not during Committed/AoA. Crit fail: 1 HP injury.	*	*	
Sacrificial Dodge	M+R	Dodge –2; take a hit for an adjacent ally. Cannot use after AoA/Committed/M&A. Ends prone.	*	*	
Movement Defences MA	M	Dive&Drop –1 + retreat, end prone. Sideslip: step sideways same dist. –1 + retreat (standing). Slip: step CLOSER. –2 + retreat; counters Stop Thrust at –1.	*	*	
Defensive Grip MA	M	[WEAPON only] Hold weapon close: +1 Parry vs frontal; –2 to your attacks; reach –1. Switch grip = a Ready.	*	*	
⑥ COUNTER-ATTACK & PUNISHING DEFENCES — defences that strike back or set up your next attack with a penalty on the foe.					
Riposte MA	M	[armed/unarmed] On a parry, accept –1 to –4 off your Parry (floor 8 before Enh Parry & CR); success → your first attack next turn on that foe forces them to defend at the SAME penalty you took (take –3 → they're at –3). Full penalty hits the matching defence (parried weapon–Parry, shield–Block, unarmed–Dodge); half (round down) on their other defences. Riposte IS a Deceptive Attack — don't stack Deceptive.	*	*	
Counterattack MA	M+R	[armed/unarmed] Hard tech, default skill –5. After a successful Dodge/Parry/Block → your next attack on that foe (this turn or next) penalises their defence by a flat –2 (no defensive risk like Riposte, but smaller & fixed). Can't combine with Riposte same turn.	*	*	
Stop Hit MA	M	[armed/unarmed] Wait variant. Both attack on trigger; lower-margin attacker defends at –1 (–3 if parrying with the attacking weapon). Stops melee charges.	*	*	
Stop Thrust	M	[thrust wpn / punch] Wait variant vs a charging foe. +1 dmg per 2 m of their Move, max +3. Knockdown interrupts their attack.	*	*	
Aggressive Parry MA	M	[armed OR unarmed] Parry –2 → strike the attacking limb (uses their HP for crippling). Unarmed = thrust crushing; armed = your weapon's thrust (sabers cut clean). Crit fail: self-injury.	*	*	
Hand-Clap Parry MA	M	[UNARMED only] Karate –2; bare hands parry AND grapple a small weapon (knives, fists). Needs a free hand. Not polearms / sabers.	*	*	

HIT RANGED TO-HIT — SIZE · SPEED · RANGE					
Effective skill = weapon skill + Size mod + Speed bonus – Range penalty + posture / cover / light. Distance & speed in metres (1 m = 1 hex; 1 hex/turn = 1 m/s). E.g. trooper (SM 0), still, at 30 m → –7 net.					
SIZE	SM	SPEED	MOD	RANGE	MOD
20 m +	+6	≤ 2 m/s	0	≤ 2 m	0
10–15 m	+4/5	3 m/s	+1	3 m	–2
5–7 m	+2/3	5–7 m/s	+2/3	5–7 m	–3
3 m	+1	10 m/s	+4	10 m	–4
2 m	0	15 m/s	+5	15 m	–5
1.5 m	–1	20 m/s	+6	20 m	–6
1 m	–2	30 m/s	+7	30 m	–7
0.6 m	–3	50 m/s	+8	50 m	–8
0.5 m	–4	70 m/s	+9	70 m	–9
0.3 m	–5	100 m/s	+10	100 m	–10
Big = + (easier); small = –. Add to skill.		Faster = + (easier to track). Add to skill.		Farther = – (harder). Subtract from skill.	
Human 0 · speeder +3 · AT-ST +5 · droid –2.		On-foot = no bonus; matters for vehicles.		150 –11 · 200 –12 · 300 –13 · 500 –14 · 1 km –16.	

CRIT CRITICAL SUCCESS & FAILURE	
Crit success: nat 3–4 always; nat 5 if skill ≥ 15; nat 6 if skill ≥ 16. Crit failure: nat 18 always; nat 17 if skill ≤ 15; margin of failure ≥ 10.	
Defence crit: auto-defend + attacker is off-balance –2 DX, defences & skills until they Ready. Crit Parry = free Aggressive Parry to attacking limb; Crit Dodge +1 m free step; Crit Block drives attacker back. Crit fail (def): auto-fail + attacker may roll Crit Hit.	
Skill/HT/Will/IQ crit: success = ideal/greatest fail; fail = worst/lingering (2x FP on Force SW).	
HOUSE Crit Hit → Counter-Crit Defence. On a critical hit the defender MAY still attempt an active defence, but it succeeds ONLY on a critical defence of its own (nat 3–4; 5 at def ≥ 15; 6 at def ≥ 16) — else the hit lands. DR still applies ; damage rolled normally then modified per the row. Extra defences take the multi-def penalty & each needs its own crit. Lightsaber Parry SW vs a critical bolt follows the same rule.	

3D	CRITICAL HIT	CRITICAL MISS
3–4	3: Max dmg + auto major wound (HT –5 vs stun). 4: Triple damage.	3: Stab self, full dmg. 4: Drop weapon + trip prone (DX–4).
5	Double damage.	Hit yourself for half damage.
6	Damage ignores DR.	Drop your weapon (Ready to recover).
7	Defender stunned (HT to recover, def –4 while stunned).	Whiff — lose your attack.
8–10	Normal damage, no extra effect.	Lose your attack; turn over.
11	Defender drops weapon.	You drop your weapon.
12	Knockdown — defender prone.	Fall prone (DX or Acro to avoid).
13–14	Defender stunned (HT each turn).	Hit random ally in melee range.
15–16	Major wound regardless of dmg. HT or stun + knockdown.	Weapon damaged — HT or breaks next use.
17–18	17: HT at –5 or die. 18: Outright kill.	17: Weapon broken. 18: Broken + fall + self-injury.

HOUSE TURN ECONOMY — QUICK ACTION & SPECIAL REACTION		
Quick Action (1/turn): alongside your maneuver. Force Push/Pull (full FP), Fast-Draw, single-touch device activation. Defensive QA forbidden during AoA; offensive QA + Fast-Draw still permitted.		
Special Reaction (1/turn, Force-only, full FP): Force Push/Pull as a triggered Reaction on top of an active defence — does not consume the defence slot. Defensive use (redirect threat) forbidden during AoA; offensive use (shove/pull foe) legal during AoA.		
GRP GRAPPLING		
Close-combat range only. Grappled = –4 DX, can't move freely. While grappled: no retreat; no parry w/ grappled arm; no Sacrificial Dodge.		
ACTION	ROLL	EFFECT
Grapple	DX/grappling skill vs target's active defence	Target –4 DX, can't move freely. Two hands on one body part: +3.
Takedown (req Grapple)	QC your ST or DX (best) vs theirs	Win = foe prone, grapple persists. Tie/loss = foe stands.
Pin (req Takedown)	QC ST vs ST. +3 two hands, +3 size, –4 grappled	Win = foe helpless; attackers hit automatically.
Choke (neck)	Neck grapple + QC ST (+3 2H) vs HT	Cr dmg (margin = HP), bypasses torso DR. Carotid: 2nd rd → HT or KO. Trachea: 10 s → HT or KO.
Strike / Break Free	Strike –4; Break Free QC ST vs theirs	Strike: dmg only, grapple persists. Break Free: win = escape + free step; costs full turn.

POS POSTURE		
POSTURE	ATK/DEF	TO HIT YOU · MOVE
Standing	0 / 0	Normal · Full Move
Crouching	–2/0	–2 ranged to hit you (from outside C) · Move x½
Kneeling	–2/–2	–2 to hit you · Move x½
Sitting	–2/–2	–2 to hit you · Move 0 (M&A 1 hex)
Crawling	–4/–3	+2 close / –2 ranged to hit you · Move 1 hex
Prone / Supine	–4/–3	+3 close / –2 ranged to hit you · no Move

HIT-LOCATION DIAGRAM

DO-NOT-MODIFY REFERENCE PLATE

EYES (-9)

Miss by 1 hits skull or face
Dam > 1/10 HP blinds
As skull w/o DR

HEAD (-5)

Roll 1d
1 Eyes
2-4 Skull
5-6 Face

BODY

Roll 1d
1 Neck
2-5 Torso
6 Groin

VITALS (-3)

Heart, Lungs,
Kidneys, etc.
Tightbeam burn x2,
Imp & pi x3

MAJOR WOUND

Any single injury > 1/2 HP
Cripples limb also counts
as a Major Wound.
When you receive a MW you
must make a HT check to
avoid knockdown and stun.

LESS THAN 1/3 HP

Halve DX and Move.

0 HP OR LESS:

Make a HT check next turn to
remain conscious (-1 to HT
check per full -HP), and on
beginning of each turn you
chose to take any action
including an active defense.

-1 x HP

Make a HT check or die.

-5 x HP

Character dies immediately.

3-4 SKULL (-7)

Miss by 1 hits torso, DR+2;
dam v4 knockdown at -10

5 FACE (-5)

Miss by 1 hits torso
Roll vs knockdown at -5

17-18 NECK (-5)

Miss by 1 hits torso
Crush x1.5 cutting x2

8 RIGHT ARM (-2)

Pi++, pi+, imp are x1
Dam > 1/2 HP cripples

9-10 TORSO (-0)

Roll 1d
1-2 = Vitals, Imp, pi,
and tight beam burn only

12 LEFT ARM (-2)

Pi++, pi+, imp are x1
Dam > 1/2 HP cripples

11 GROIN (-3)

Males get shock x2 from crush
Roll vs knockdown at -5

15 HAND (-4)

Roll randomly right/left
Pi++, pi+, imp are x1
Dam > 1/3 HP cripples

6-7 RIGHT LEG (-2)

Pi++, pi+, imp are x1
Dam > 1/2 HP cripples

13-14 LEFT LEG (-2)

Pi++, pi+, imp are x1
Dam > 1/3 HP cripples

16 FOOT (-4)

Roll randomly right/left
Pi++, pi+, imp are x1
Dam > 1/3 HP cripples

LOC HIT LOCATION & CRIPPLING (HUMANOID)				
Random hit (3d): match first column. Targeted: aim anywhere, pay the to-hit penalty. Dmg types = what can reach that location (others hit Face/Torso). Cripple = single-hit injury threshold; cutting across it = severance. Major wound (> HP/2) → HT vs stun + knockdown. The weapon — not the motion — sets the damage type.				
3D	LOCATION	HIT	DMG TYPES	CRIPPLE / EFFECT
3–4	Skull / Brain	–7	All	Skull DR 2. Penetrating x4 wound. Major → HT –10 or unconscious + knockdown. Miss by 1 → Torso.
5	Face	–5	All	Crits read one row better. Cr → knockdown HT –5. Cr → HT or blinded. Miss by 1 → Torso.
—	Eye (target)	–9	imp/pi/tib-burn	Cripple HP/10 = blinded that side. x4, no DR. Both = blind. Force Sense remains SW .
6–7 13–14	Leg	–2	All; imp/pi+/pi++ x1	Cripple HP/2. Move 1, fall prone (DX to avoid), no kick. Dmg capped at limb HP. Cut cripple = severance.
8 · 12	Arm	–2	All; imp/pi+/pi++ x1	Cripple HP/2. Drop everything held; no attack/parry/grapple w/ limb. Cut cripple = severance.
9–10	Torso	0	All — standard	Standard injury. Within Torso: Vitals –3, Heart –5 (below).
11	Groin	–3	All	Cut/pi/imp = auto major wound. Males: cr x2 shock (cap –8). Stun, –5 DX for 2d turns. Knockdown HT –5.
—	Spine (target)	–8	cr/cut/imp/pi/tib-burn	Cripples both legs (lower) OR both arms (upper). Severance = paralysis below the cut.
15	Hand	–4	All; imp/pi+/pi++ x1	Cripple HP/3. Drop everything; cannot grasp or wield. 2H needs both hands.
—	Neck Vein/Artery (t)	–8	cut/imp/pi/tib-burn	x1.5 dmg. HT each turn vs bleeding (1 HP/turn) until first aid. Severance = death in seconds.
16	Foot	–4	All; imp/pi+/pi++ x1	Cripple HP/3. Move halved; –2 DX footwork (no Acro Dodge, no Retreat bonus).
—	Arm/Leg Joint (t)	–7	cr/cut/imp/pi/tib-burn	Cripple HP/4 (half normal limb). Joint often locks. Effects per parent limb.
17–18	Neck	–5	All; cr x1.5, cut x2	Severance ends combat. Major → HT or stun. Miss by 1 → Torso.
—	Vitals (target)	–3	imp/pi/tib-burn	x3 wound mult. Penetrating = major wound → HT or stun. Can't be crippled but can kill.
—	Heart (target)	–5	imp/pi/tib-burn	As Vitals (x3) + auto major wound on any penetration. Death very likely.

DEF ACTIVE DEFENCES & MULTI-DEFENCE	
Dodge	Basic Speed + 3, drop fractions; –encumbrance; +1 Combat Reflexes; +Enhanced Dodge; +DB (shield).
Parry	Skill + 2 + 3, drop fractions; weapon mod; +CR; +Enh Parry; retreat bonus. Off-hand –4 without Ambidexterity.
Block	Block skill + 2 + 3, drop fractions; +CR; +Enh Block; +DB. Needs ready shield, buckler, or cloak.
Parry vs Ranged HOUSE	Lightsaber Parry can parry ranged attacks (blaster bolts, slug rounds) as a normal Parry — same skill, no special modes. Other weapons cannot parry ranged.
Multi-def RAW	–4 cumulative per defence after the first (–4, –8, –12...). Hard ceiling.
Multi-def TbaM/WM	–2 cumulative per defence after first — ONLY for the trained weapon/skill. Others use RAW –4.
Side facing	–2 to all active defences.
Rear facing	If unaware: NO defence — hit lands. Must first become aware (Per roll, CR, or Danger Sense); then –4. 360° Vision SW as side, –2.

RES DAMAGE RESOLUTION — STEP BY STEP	
1	Roll basic damage from the weapon (e.g. 2d+1). This number drives both injury and knockback.
2	Subtract armour: penetration = damage – (DR ÷ Armour Divisor). If DR ≥ that, nothing gets through (see Blunt Trauma). AD scales the armour, not the roll: standard AD 1 = full DR · heavy blaster / military AD 2 = half DR · ion AD 5 (anti-droid) · disruptor AD 10 · lightsaber AD ∞ = ignores DR (vs non-cortosis).
3	Apply wound multiplier to penetration by damage type & location (see Damage Types): injury = penetration × mult. Vitals x3, Skull x4, etc.
4	Resolve location effects: crippling, major wound (> HP/2 → HT vs stun + knockdown), bleeding / cauterisation, knockback (below & in Hit Location).
5	Subtract injury from HP and apply shock, then check Reeling / Consciousness / Death as thresholds are crossed.
Worked: bolt rolls 8, target DR 6, weapon AD 2 → eff DR 3 → pen 5 → tib-burn x1 = 5 HP. To Vitals: x3 = 15 HP (major wound).	

DMG DAMAGE TYPE EFFECTS & MULTIPLIERS				
Multiplier applies to penetration (after DR). Living: meat & bone · Un-living: vehicles, droids, walls · Homogenous: solid mass.				
TYPE	LIV	UN-L	HOM	NOTES
Burning burn	x1	x1	x1	Ignites flammables. Tight-beam burn (lasers) reaches eye/vitals; some AD 2.
Corrosion cor	x1	x1	x1	Acid. Erodes DR –1 per 5 dmg (permanent).
Crushing cr	x1	x1	x1	Blunt trauma. x2 vs neck (snap/strangle). Easier knockback (full).
Cutting cut	x1.5	x1	x1.5	Severs limbs on a crippling injury. Knockback at half.
Fatigue fat	FP	FP	FP	FP damage, not HP. Stun bolts, tasers, exhaustion.
Impaling imp	x2	x1	x½	Spears, arrows, lightsabers (imp/burn). x3 vitals. Limbs x1 cap. No knockback.
Piercing pi–/pi+/++	½/1 1.5/2	½/½ ½/1	1/½/½ ½/½	Pistol → rifle → cannon. x2 vitals from pi+ up. No knockback.
Toxic tox	x1	—	—	Radiation, poison, disease; bypasses DR partially (sealed armour stops it). Living only.

WND WOUNDS, CONDITIONS & DEATH		
Shock (turn you lost HP)	Next turn: –(HP lost) to DX, IQ, skills — cap –4 (brain –8). High Pain Threshold ignores it.	
Major Wound (> HP/2)	HT. Fail = stunned (lose turn, def –4, HT each turn); crit fail = unconscious. If standing, HT or knocked prone.	
Reeling (HP ≤ ½)	Move & Dodge halved (round up) until healed above ½.	
Consciousness (HP ≤ 0)	HT at start of each turn. Fail = unconscious. Success = may still act.	
Death checks	HT at –1x, –2x, –3x, –4x HP or die (crit fail = die). Hard to Kill bonus. ≤ –5x = auto-dead; ≤ –10x = body destroyed.	
FP fatigue	FP ≤ ¼: Move/Dodge halved, ST halved for dmg, skills –2. FP ≤ 0: HT to act, DX/IQ halved. FP ≤ –1x = unconscious.	
Mental stun	Lose next turn, def –4. IQ each turn to recover (CR +6, never freezes in surprise).	
SPECIAL DAMAGE OUTCOMES		
Knockback	Cr (full) & cut (half) only; not imp/pi. 1 m back per full multiple of (target ST–2) in basic damage (before wound mult), whether or not it penetrates DR. Knocked 2+ m → roll best of DX/Acrobatics/Judo or fall prone (–1/m beyond 1st). Into a wall: 1 HP cr per metre not travelled.	
Blunt Trauma	Flexible armour (vest, mesh, leather) that stops a hit still transmits 1 HP crushing per 5 pts stopped (round down), ignoring DR. Rigid armour (plate, ceramic) does not. Not from energy/burn.	
Bleeding	Triggers: Neck/V/A, or any cut > ½ HP to a limb. Each turn HT or lose 1 HP ; First Aid roll stops it. Lasts the engagement if untreated.	
Cauterisation SW	Lightsaber wounds: full dmg & all effects but no bleeding ; any sever/cripple is permanent (Force-heal/prosthetic only). Blaster bolts bleed at half rate; slugthrowers bleed normally.	

RNG RANGED — MODIFIERS, COVER & BLASTER FIRE			
Aim & Acc	+Acc on the shot after Aim; extra Aim +1 each cap, +2 over Acc. Move & Attack: skill cap, –2 or –Bulk (worse).		
Recoil & Bulk	–Rcl per shot after the first in a turn. –Bulk firing from M&A, snap-shot w/o Aim, or close combat.		
Target Move	–1 cross-walk, –2 cross-run, –3 sprint / erratic. (Target SM & range from the To-Hit table.)		
Concealment	Smoke / dim / fog –2 to –4 (to-hit only). Pitch dark: Wild Swing cap 9 / Hearing. Hurt / heavily hurt: –3 / –4 to all skills.		

ATKSHIP-TO-SHIP — TO HIT

Roll 3d6 ≤ Gunner + target SM + range mod − tracking − your evasive −2 (+ RoF bonus).

TARGET SIZE MODIFIER (ADDED TO YOUR ROLL)

Speeder / swoop / walker	+2	Hnd +1...+2
Starfighter / interceptor / bomber	+4	Hnd 0...+2
Gunship / shuttle	+5	Hnd −1
Freighter / transport	+6	Hnd −2
Corvette	+8	Hnd −3
Frigate	+9	Hnd −4
Cruiser / capital	+10	Hnd −5

Capital batteries (turbolasers & kin): −6 vs SM ≤ +5 targets — slow tracking. Point-defence is exempt (that's its job).
Position advantage — win a Pilot Quick Contest for rear/flank: +2 to hit, target Dodge −2.
Missiles & locks — warheads need a sensor lock (Electronics Op [Sensors], 1 turn). Target dodges the warhead at −2; each countermeasure system forces a lock re-roll or gives +2 Dodge.
Point defence — each PD mount rolls Gunnery 1/turn vs an inbound missile (destroyed on success) or strafing fighter (takes a light-laser hit, 6d×2).

DEFDEFENDING — VEHICLE DODGE

Dodge = 3 + (Pilot ÷ 3, round down) + Hnd — roll vs each attack you can see coming.

Evasive action+2 Dodge, −2 your attacks until your next turn. Declare on your turn.

Barrel rollPilot −1; +2 Dodge vs one incoming attack.

Guided warheadDodge at −2 (countermeasures help — see ATK).

Capital hullHnd −4/−5: effectively no Dodge. Capital defence = shields, armour, point-defence.

Ace (Pilot 16) in an interceptor (Hnd +2): Dodge 10, evasive 12. The sheet shows your number live on each ship card.

STSSTATUS EFFECTS — QUICK REFERENCE

Stunned	No actions; defences −4. Recover: HT roll (physical) or IQ (mental) at end of each turn. Combat Reflexes +6 vs mental freeze.
Shock	−1 per HP lost (cap −4) to DX/IQ skills on your next turn only. Not defences. High Pain Threshold negates.
Knocked down	Major wound / Face / Skull hit: HT roll or fall prone & drop what's held (fail by 5+: also stunned). Standing = a Change Posture maneuver.
Bleeding	Vitals/Neck wounds: HT each turn or lose 1 HP until tended (First Aid) — lightsaber & blaster burns cauterise (no bleed).
On Fire SW	1d−3 burn per turn (min 1) until out: drop & roll (DX) or smother (Ready action). Sealed armour protects until its DR is breached; fire fields burn 1d/turn.
Poisoned	HT roll to resist (at the toxin's listed number); fail = listed damage, often delayed or staged. Antitox injector: +3 HT & neutralises one known toxin. Sealed armour stops contact gas; cloth doesn't.
Electrified / Stun bolt	Stun settings & sonic: aff HT−N — fail = stunned (recover as above); damage goes to FP not HP. Electrified surfaces/shock-whips: HT or stunned + 1 FP per contact turn.
Suffocating	HT every 15 sec; each fail = 1 FP. At 0 FP: 1 HP/turn until air. Vacuum adds 1d−1 burn per 5 sec (unsealed).
Droids	No shock, no bleeding, no FP — full effect until destroyed. Droid "stun" = ion stagger: lose 1 turn, defences −4, HT each turn to reboot.

Sheet automation: conditions toggle on the Combat tab and feed their penalties into the Skill Roller automatically.

CMBCOMBINATIONS & ACTION ECONOMY

Your turn = ONE maneuver · + a free active defence vs each attack (a Reaction — no maneuver cost) · + Free Actions · + 1 Quick Action · + 1 Special Reaction (Force).

ATTACK MOD	LAYERS WITH
Deceptive	Rapid Strike · Targeted · Committed · AoA. Not Telegraphic. Melee.
Telegraphic	Rapid Strike · Targeted · Committed. Not Deceptive. Melee.
Rapid Strike	Deceptive · Telegraphic · Targeted. −6 ea (−3 TbaM/WM). Melee.
Targeted	Almost anything — melee & ranged Aim.
Feint/Beat/Ruse	Sets up your NEXT attack. Melee.
Dual-Weapon	Two ready weapons; off-hand −4 w/o Ambidexterity.

MANEUVER → ATTACKS · YOUR DEFENCE

Attack	any + compatible mods · defend normally
Committed	Determined/Strong + Deceptive/Rapid/Targeted · limited defence, no retreat
All-Out Atk	Determined/Double/Strong/Long + mods · NO defence (offensive QA/SR + Fast-Draw legal)
Move & Atk	skill cap 9; Telegraphic ok · Dodge/Block only
All-Out Def	no attack · +2 one / +1 two / Double vs same attack

2nd+ defence/turn: −4 cumulative (−2 trained). **Retreat** on 1st defence vs a foe, all turn, costs step. **Feverish** (+2/1FP) & **Acro Dodge**: 1/turn, not in Committed/AoA.

DMGCOMPONENTS ARE THE HEALTH

Per hit: ① shields soak (SP pool) → ② DR of the struck system − weapon AP (1:1, no dividing; exposed mounts — engines, weapons, sensors — take only 40% of hull DR) → ③ penetrating damage vs Damage Threshold (DT):

< DT

Superficial — scorch marks, no effect.

≥ DT

Struck system degrades one step: ● Intact → ④ Damaged → × Destroyed.

≥ 2 × DT

Two steps — an intact system is destroyed outright.

≥ 6 × DT

vs full hull DR − AP: VAPORISED. No parts roll, nothing to salvage. (What a turbolaser does to a fighter. Never ion.)

DAMAGE THRESHOLD BY CLASS

Speeders / swoops / walkers	DT 8
Starfighters / interceptors / bombers	DT 10
Shuttles / freighters / gunships	DT 15
Corvettes / frigates	DT 25
Cruisers & capitals	DT 40

How ships die: Hull × = breach, lost in 1d min (evacuate) · Reactor × = dead in space · Sublight × = adrift · or the crit table. Mission-kill ≠ destruction: board it, salvage it, or finish it.

WPNSHIP WEAPONS — DAMAGE · AP

Light laser cannon	6d×2	dogfight, high RoF
Laser cannon	6d×3	the fighter standard
Heavy laser cannon	6d×4 · AP 5	bullies freighters
Quad laser (turret)	6d×3 · RoF 4	the freighter's teeth
Ion cannon	6d×2 ion	anti-shield / anti-system
Ion railgun	6d×3 ion · AP 5	shield-stripper
Concussion missile	6d×4 · AP 10	guided; needs lock
Proton torpedo	6d×6 · AP 20	the trench-run shot
Thermite torpedo	6d×4 · AP 80	armour-melter
Slug railgun	6d×6 · AP 20	sniper hull-killer
Point-defence laser	6d×2	anti-fighter / anti-missile
Turbolaser (light → heavy)	6d×10→×20	capital batteries
Neuralyzer array SW	— · 3-turn lock	bypasses shields; crew HT−4 or out. Droids immune

Expected fight lengths (yardstick): fighter duel 3–4 hits · wing vs freighter 3–6 · torpedo run vs corvette ~6 · squadron vs frigate ~5 turns · capital duel 4–11 volleys · fighter guns vs frigate hull: never — burn the exposed mounts instead.

SYSPER-PART EFFECTS — ④ DAMAGED / × DESTROYED

Hull	④ integrity compromised · × BREACH — lost in 1d min
Armour	④ DR −25% · × DR 0 (facing)
Sublight	④ Move −25%, −1 Pilot evasions · × Move 0, adrift
Shields	④ cap −50%, regen halved · × SP 0, none
Reactor	④ weapons every 2nd turn, Move −25% · × dead in space
Weapon	④ −1 hit, RoF −25% · × mount gone
Sensors	④ −2 detect · × eyeball only, −6, no auto-targeting
Targeting	④ −1 attacks · × −4 attacks, no missile lock
Hyperdrive	④ Astrogation −4, double jump time · × no jump
Astrogation	④ Astrogation −2 · × −8, manual plotting
Life Support	④ 1 hr air · × 5 min — suit up
ECM	④ lose defence bonus · × no jamming, no decoys
Crew / Cargo	④ section compromised · × vented / contents lost

Exposed (40% DR): Sublight, Weapon, Sensors. Called shots use the Aim penalties on the sheet's parts table.

FIXREPAIR LADDER & SHIELD REGEN

Damage control (in combat)	Mechanic roll, 1/turn: jury-rig one ④ system back into action — the next hit on it re-breaks it. × can't be fixed in combat. One try per system per scene.
Astromech	As above, 1 roll/min — its own attempts, on top of the crew's.
Field patch	15–60 min per system: one × → ④, or make a jury-rig permanent.
Workshop	~6 h/system to ● (fighter); ~1 day/system (freighter); days/section (capital).
Shield regen	10% of cap per turn out of direct fire (round up). Emitters ④: half. Generator ×: none.

DRDROIDS — TWO WAYS DOWN

HP track (personal scale): droids have HP, no FP, no shock, no bleeding — full effect until destroyed. Component track (surgical): call the shot — droid DR (+AD) → penetrating vs droid DT, same ④/x ladder. Core × or Power × = droid inert.

DROID DAMAGE THRESHOLD

Civilian chassis (protocol, medical)	DT 6
Labour (loader, mining, construction)	DT 8
Battle / war / assassin / guard	DT 10

COUNTERS — WHAT ACTUALLY WORKS

Blasters AD 1	Fine vs civilian plating; bounce off war droids (DR 16+). Use the right tool.
Ion AD 5	The droid-killer. Ion rifle drops a war droid in ~7 hits; arcs past plating into systems.
Disruptor AD 10, ×4 wound	Illegal for a reason. Even beskar droids fall in 4–6 hits.
Beskar droids	Mando War Droid: +2 damage divisor after DR · Crusader shell: +3. Blunts everything.

Condition ladder: Shutdown (reversible — restraining bolt, ion stun, power cut) → Disabled (④ systems, repairable) → Destroyed (Core/Power × or −HP×1). Repair: Droid Mechanic + kit, ~10 min per 2d+4 HP or one system.

IONION & DISRUPTOR — SPECIAL RULES

Ion vs shields	Counts double against SP pools.
Ion vs structure	Never degrades Hull or Armour; never vaporises. Arcs into systems — disables for boarding & salvage.
Ion vs droids	Always AD 5 regardless of plating; near-harmless to organics.
Ion skills HOUSE	Separate skills, DX/A: Ion Pistol · Ion Rifle · Ion Gunner. No default from Blasters — the arc handles differently.
Disruptor	AD 10, ×4 wounding. Vile, restricted, and loud about it.

The doctrine: blasters kill people · ion kills machines & shields · disruptors kill everything and your reputation. Disable, board, profit.

COMPONENTS ARE THE HEALTH — NO HIT-POINT POOLS

RECONCILED TO STAR WARS THE OLD REPUBLIC — GURPS 4E CONVERSION, PART VIII

NEW DAMAGE THRESHOLD SYSTEM · SHIP DEFENCE & SCALE · PER-PART EFFECTS · REPAIR LADDER · DROID COUNTERS

KEY DT Damage Threshold (cripples a system at ≥DT through) · SP Shield Points (ablative pool) · Hnd Handling (maneuver & Dodge modifier) · AP Armour Piercing — weapon ignores N points of DR (ship combat is otherwise 1:1; AD +5 applies only when ship guns hit personal-scale targets) · DR Damage Resistance · SM Size Modifier (added to attacker's roll) · RoF Rate of Fire · PD Point-Defence · ECM electronic countermeasures / jamming · ● Intact · ④ Damaged · × Destroyed · 6d×N roll 6 dice, multiply by N · SW Star Wars rule ·

HOUSE campaign house rule.

Source of truth: Star Wars the Old Republic — GURPS 4E Conversion, Part VIII (Components Are the Health · Ship-to-Ship Defence & Scale). Where this sheet and the compendium differ, the compendium governs.

NEW Side B added: full component-health ship & droid combat — simulation-verified against the sheet's × / □ tools. Metric throughout (1 m = 1 hex).
