REV 2 ION-CLASS SKILLS · METRIC (1 M = 1 HEX) · DAMAGE CHAIN & ARMOUR DIVISOR · **SIDE B: SHIP & DROID COMPONENT COMBAT**

①·②·③·④·⑤·⑥ THE TURN — COMBAT MANEUVERS

Turn order: highest Basic Speed (HT+DX)÷4 first; tie → higher DX, then 1d6. Surprised side acts after & may only Do Nothing with no active defences (DR still applies); Combat Reflexes negates the freeze. Pick **ONE** maneuver (Blocks ①–③), then layer modifiers (④ attacks; ⑤–⑥ defences). **Use:** M melee · R ranged · M+R both · MA Martial-Arts technique.

MANEUVER / MODIFIER	USE	NOTES	MOVE	DEFENCE
① ALL-OUT ATTACK — sacrifice ALL active defences for a better attack. Step or full Move. HOUSE offensive QA / SR & Fast-Draw stay legal; defensive ones do not.				
AoA (Determined)	M+R	**+4 to hit.** Single attack.	Half	None
AoA (Strong)	M	**+2 dmg** or +1/die if better. Thr/sw only — **not** force swords.	Half	None
AoA (Double)	M+R	Two attacks, same/different targets. May swap one slot for Rapid Strike, DWA, or Feint.	Half	None
AoA (Feint)	M	Free Feint, then a normal Attack with the margin applying. Same target.	Half	None
AoA (Long) MA	M	Reach +1 for the attack, no hit penalty. Swing −2 dmg / −1 per die.	Half	None
② ALL-OUT DEFENCE — sacrifice your attack to focus on defence. Step permitted.				
AoD (Increased)	M+R	**+2** to ONE chosen Active Defence.	Step	+2 one
AoD (Increased) — Balanced MA	M+R	Alternative: **+1 to TWO** different defence types instead of +2 to one.	Step	+1 two
AoD (Double)	M+R	Two Active Defences vs the SAME attack. Different types, or two parries w/ different weapons. **Not** two Dodges. 2nd takes multi-def penalty.	Step	2 def/atk
③ STANDARD MANEUVERS — normal one-attack or non-attack maneuvers. Defences normal.				
Attack	M+R	One attack with any ready weapon. May add Block ④ modifiers.	Step	Any
Defensive Attack MA	M	One attack at −2 dmg (or −1/die, worse). Pick ONE: +1 to one defence; OR +2 vs Leg Grapples & +2 DX vs falling on kicks; OR parry with same balanced weapon used to attack.	Step	+1 one
Committed Attack (Det.) MA	M	One melee attack **+2 hit.** Step or 2 steps (2nd → −2 hit). Attacking limb can't defend; other defences −2. No retreat.	Step ×2	−2 / 0
Committed Attack (Strong) MA	M	One melee attack at normal skill, **+1 dmg.** Thr/sw — not force swords. Movement & defence as Det.	Step ×2	−2 / 0
Move and Attack	M+R	Full Move + one attack. Melee skill cap 9 (or DX+2). Ranged −2 or Bulk (worse). No retreat. No Rapid Strike.	Full	Dodge/Block
Aim	R	+Acc 1st turn, +1 each 2nd & 3rd (cap +2 over Acc). Spoiled if you defend (Will roll to retain).	Step	Any*
Evaluate	M	+1 (1t) / +2 (2t) / +3 (3t+) on next attack. Cancels foe Deceptive on YOUR defence until you attack.	Step	Any
Feint	M	QC best Melee/Unarmed/Cloak (or DX) vs their best weapon skill or DX. **Your winning margin = the penalty** to ONE of their active defences vs your next attack (next turn). Defensive Feint: that penalty instead applies to their next attack on you.	Step	Any
Move	M+R	Run at full Move. +1 sprint bonus on consecutive running turns.	Full	Any
Change Posture	M+R	Stand / sit / kneel / crawl / prone / face-up.	None	Any
Ready	M+R	Draw, reload, change grip/reach, clear a jam, prepare an item.	Step	Any
Concentrate SW	M+R	Sustained mental effort — required for Force powers tagged Concentrate. If hit, Will roll or lose concentration AND any FP spent.	Step	Any*
Wait	M+R	Wait for a trigger; fires before the triggering action. Move & Defence per the specified action.	None*	*
Do Nothing	M+R	Start of combat or when stunned. Defence −4 if stunned. HT/IQ to recover.	None	Any*
④ ATTACK MODIFIERS — layer WITHIN an Attack / Committed / AoA / Defensive / M&A maneuver. Melee-only: Deceptive, Rapid Strike, Beat, Ruse, Combination.				
Deceptive Attack	M	**−2 hit → −1** to foe's defence (no cap beyond skill). Stacks w/ Targeted, Committed, AoA. Contradicts Telegraphic. Evaluate cancels it on YOUR defence (net 0).	*	*
Dual-Weapon Attack	M+R	Two attacks, one per hand, each **−4** (−8 off-hand without Ambidexterity / Off-Hand Training). Cannot combine w/ Rapid Strike same turn.	*	*
Rapid Strike	M	Two attacks, single weapon (or unarmed), each **−6** (−3 w/ TbaM or WM). Melee only — for ranged use RoF.	*	*
Targeted Attack	M+R	Aim for a specific hit location (penalty per chart). Wound effects apply there. Repeating same target → +1 to their defence on 3rd+ try.	*	*
Telegraphic Attack	M+R	**+4 hit;** target gets **+2 defence.** Stacks w/ Rapid Strike, Targeted, Committed. Contradicts Deceptive.	*	*
Wild Swing	M+R	Skill capped at **9**; attack a target you cannot clearly see (rear, dark, obscured).	*	*
Beat MA	M	Within Feint. QC your ST-based weapon skill vs their ST/DX weapon skill. Win → ONE named defence penalised **by your margin**, vs **ALL** attackers, until end of your next turn. Requires you parried them (or vice-versa) last turn, or they're grappled.	*	*
Ruse MA	M	Within Feint. QC your IQ-based weapon skill vs their Per-skill / DX-skill / Tactics. Win → ONE defence penalised **by your margin**, vs your next attack only.	*	*
Combination MA	M	Trained multi-strike sequence. Buys off Rapid Strike penalty per level. One per maneuver max. Not w/ M&A.	*	*
⑤ DEFENCE OPTIONS — avoid, mitigate, or eat the attack. Once per turn unless noted.				
Retreat (Any)	M+R	Step 1 m back. **+3** Dodge or fencing/Box/Judo/Karate Parry; **+1** other Parry/Block. Costs your step. Not vs a grapple.	*	*
Acrobatic Dodge	M+R	Roll Acrobatics → +2 Dodge on success, −2 on failure. Crit fail: fall. Once/turn.	*	*
Feverish Defence MA	M+R	Spend 1 FP → +2 to one defence. Once/turn. **Not** during Committed/AoA. Crit fail: 1 HP injury.	*	*
Sacrificial Dodge	M+R	Dodge −2; take a hit for an adjacent ally. Cannot use after AoA/Committed/M&A. Ends prone.	*	*
Movement Defences MA	M	Dive&Drop −1 + retreat, end prone. Sideslip: step sideways same dist, −1 + retreat (standing). Slip: step CLOSER, −2 + retreat; counters Stop Thrust at −1.	*	*
Defensive Grip MA	M	Hold weapon close: +1 Parry vs frontal; −2 to your attacks; reach −1. Switch grip = a Ready.	*	*
⑥ COUNTER-ATTACK & PUNISHING DEFENCES — defences that strike back or set up your next attack with a penalty on the foe.				
Riposte MA	M	On a parry, accept **−1 to −4** off your Parry (floor 8 **before** Enh Parry & CR); success → your first attack next turn on that foe **forces them to defend at the SAME penalty you took** (take −3 → they're at −3). Full penalty hits the matching defence (parried weapon→Parry, shield→Block, unarmed→Dodge); **half** (round down) on their other defences. Riposte IS a Deceptive Attack — don't stack Deceptive.	*	*
Counterattack MA	M+R	Hard tech, default skill −5. After a successful Dodge/Parry/Block → your next attack on that foe (this turn or next) penalises their defence by a flat **−2** (no defensive risk like Riposte, but smaller & fixed). Can't combine with Riposte same turn.	*	*
Stop Hit MA	M	Wait variant. Both attack on trigger; lower-margin attacker defends at −1 (−3 if parrying with the attacking weapon). Stops melee charges.	*	*
Stop Thrust	M	Wait variant vs a charging foe. +1 dmg per 2 m of their Move, max +3. Knockdown interrupts their attack.	*	*

HIT RANGED TO-HIT — SIZE · SPEED · RANGE

Effective skill = weapon skill + Size mod + Speed bonus − Range penalty + posture / cover / light. Distance & speed in **metres** (1 m = 1 hex; 1 hex/turn = 1 m/s). E.g. trooper (SM 0), still, at 30 m → −7 net.

SIZE	SM
20 m +	+6
10–15 m	+4/5
5–7 m	+2/3
3 m	+1
2 m	0
1.5 m	−1
1 m	−2
0.6 m	−3
0.5 m	−4
0.3 m	−5

Big = + (easier); small = −. Add to skill.
Human 0 · speeder +3 · AT-ST +5 · droid −2.

SPEED	MOD
≤ 2 m/s	0
3 m/s	+1
5–7 m/s	+2/3
10 m/s	+4
15 m/s	+5
20 m/s	+6
30 m/s	+7
50 m/s	+8
70 m/s	+9
100 m/s	+10

Faster = + (easier to track). Add to skill.
On-foot ≈ no bonus; matters for vehicles.

RANGE	MOD
≤ 2 m	0
3 m	−2
5–7 m	−3
10 m	−4
15 m	−5
20 m	−6
30 m	−7
50 m	−8
70 m	−9
100 m	−10

Farther = − (harder). Subtract from skill.
150 −11 · 200 −12 · 300 −13 · 500 −14 · 1 km −16.

CRIT CRITICAL SUCCESS & FAILURE

Crit success: nat 3–4 always; nat 5 if skill ≥ 15; nat 6 if skill ≥ 16. **Crit failure:** nat 18 always; nat 17 if skill ≤ 15; margin of failure ≥ 10.
Defence crit: auto-defend + attacker is **off-balance** (−2 DX, defences & skills until they Ready). Crit Parry = free Aggressive Parry to attacking limb; Crit Dodge +1 m free step; Crit Block drives attacker back. Crit fail (def): auto-fail + attacker may roll Crit Hit.
Skill/HT/Will/IQ crit: success = ideal/quick resist; fail = worst/lingering (2× FP on Force SW).

HOUSE **Crit Hit → Counter-Crit Defence.** On a critical hit the defender **MAY still attempt an active defence, but it succeeds ONLY on a critical defence of its own** (nat 3–4; 5 at def ≥ 15; 6 at def ≥ 16) — else the hit lands. **DR still applies;** damage rolled normally then modified per the row. Extra defences take the multi-def penalty & each needs its own crit. Lightsaber Parry SW vs a critical bolt follows the same rule.

3D	CRITICAL HIT	CRITICAL MISS
3–4	**3:** Max dmg + auto major wound (HT −5 vs stun). **4:** Triple damage.	**3:** Stab self, full dmg. **4:** Drop weapon + trip prone (DX−4).
5	Double damage.	Hit yourself for half damage.
6	Damage ignores DR.	Drop your weapon (Ready to recover).
7	Defender stunned (HT to recover, def −4 while stunned).	Whiff — lose your attack.
8–10	Normal damage, no extra effect.	Lose your attack; turn over.
11	Defender drops weapon.	You drop your weapon.
12	Knockdown — defender prone.	Fall prone (DX or Acro to avoid).
13–14	Defender stunned (HT each turn).	Hit random ally in melee range.
15–16	Major wound regardless of dmg. HT or stun + knockdown.	Weapon damaged — HT or breaks next use.
17–18	**17:** HT at −5 or die. **18:** Outright kill.	**17:** Weapon broken. **18:** Broken + fall + self-injury.

HOUSE TURN ECONOMY — QUICK ACTION & SPECIAL REACTION

Quick Action (1/turn): alongside your maneuver. Force Push/Pull (full FP), Fast-Draw, single-touch device activation. Defensive QA forbidden during AoA; offensive QA + Fast-Draw still permitted.

Special Reaction (1/turn, Force-only, full FP): Force Push/Pull as a triggered Reaction on top of an active defence — does **not** consume the defence slot. Defensive use (redirect threat) forbidden during AoA; offensive use (shove/pull foe) legal during AoA.

GRP GRAPPLING

Close-combat range only. Grappled = −4 DX, can't move freely. While grappled: no retreat; no parry w/ grappled arm; no Sacrificial Dodge.

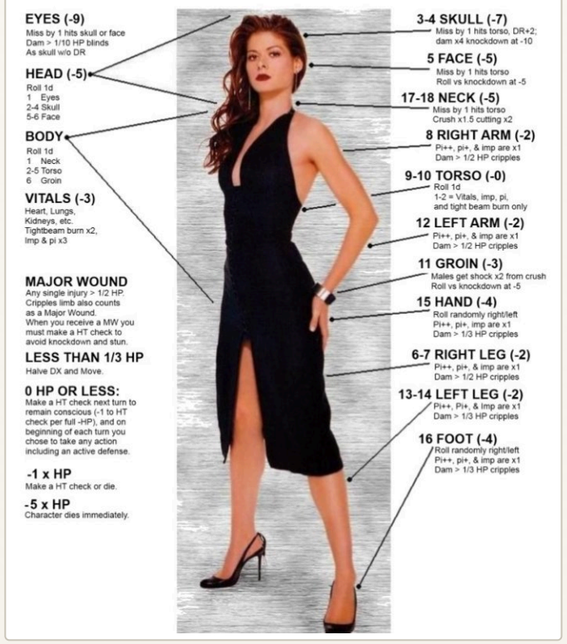
ACTION	ROLL	EFFECT
Grapple	DX/grappling skill vs target's active defence	Target −4 DX, can't move freely. Two hands on one body part: +3.
Takedown (req Grapple)	QC your ST or DX (best) vs theirs	Win = foe prone, grapple persists. Tie/loss = foe stands.
Pin (req Takedown)	QC ST vs ST. +3 two hands, +3 size, −4 grappled	Win = foe helpless; attackers hit automatically.
Choke (neck)	Neck grapple + QC ST (+3 2H) vs HT	Cr dmg (margin = HP), bypasses torso DR. Carotid: 2nd rd → HT or KO. Trachea: 10 s → HT or KO.
Strike / Break Free	Strike −4; Break Free QC ST vs theirs	Strike: dmg only, grapple persists. Break Free: win = escape + free step; costs full turn.

POS POSTURE

POSTURE	ATK/DEF	TO HIT YOU · MOVE
Standing	0 / 0	Normal · Full Move
Crouching	−2/0	−2 ranged to hit you (from outside C) · Move ×⅔
Kneeling	−2/−2	−2 to hit you · Move ×⅓
Sitting	−2/−2	−2 to hit you · Move 0 (M&A 1 hex)
Crawling	−4/−3	+2 close / −2 ranged to hit you · Move 1 hex
Prone / Supine	−4/−3	+3 close / −2 ranged to hit you · no Move

HIT-LOCATION DIAGRAM

DO-NOT-MODIFY REFERENCE PLATE



LOC HIT LOCATION & CRIPPLING (HUMANOID)

Random hit (3d): match first column. **Targeted:** aim anywhere, pay the to-hit penalty. **Dmg types** = what can reach that location (others hit Face/Torso). **Cripple** = single-hit injury threshold; cutting across it = severance. Major wound (> HP/2) → HT vs stun + knockdown. The weapon — not the motion — sets the damage type.

3D	LOCATION	HIT	DMG TYPES	CRIPPLE / EFFECT
3–4	Skull / Brain	−7	All	Skull DR 2. Penetrating ×4 wound. Major → HT −10 or unconscious + knockdown. Miss by 1 → Torso.
5	Face	−5	All	Crits read one row better. Cr → knockdown HT −5. Cor → HT or blinded. Miss by 1 → Torso.
—	Eye (target)	−9	imp/pi/tib-burn	Cripple HP/10 = blinded that side. ×4, no DR. Both = blind. Force Sense remains SW.
6–7 13–14	Leg	−2	All; imp/pi+/pi++ ×1	Cripple HP/2. Move 1, fall prone (DX to avoid), no kick. Dmg capped at limb HP. Cut cripple = severance.
8 · 12	Arm	−2	All; imp/pi+/pi++ ×1	Cripple HP/2. Drop everything held; no attack/parry/grapple w/ limb. Cut cripple = severance.
9–10	Torso	0	All — standard	Standard injury. Within Torso: Vitals −3, Heart −5 (below).
11	Groin	−3	All	Cut/pi/imp = auto major wound. Males: cr ×2 shock (cap −8). Stun, −5 DX for 2d turns. Knockdown HT −5.
—	Spine (target)	−8	cr/cut/imp/pi/tib-burn	Cripples both legs (lower) OR both arms (upper). Severance = paralysis below the cut.
15	Hand	−4	All; imp/pi+/pi++ ×1	Cripple HP/3. Drop everything; cannot grasp or wield. 2H needs both hands.
—	Neck Vein/Artery (t)	−8	cut/imp/pi/tib-burn	×1.5 dmg. HT each turn vs bleeding (1 HP/turn) until first aid. Severance = death in seconds.
16	Foot	−4	All; imp/pi+/pi++ ×1	Cripple HP/3. Move halved; −2 DX footwork (no Acro Dodge, no Retreat bonus).
—	Arm/Leg Joint (t)	−7	cr/cut/imp/pi/tib-burn	Cripple HP/4 (half normal limb). Joint often locks. Effects per parent limb.
17–18	Neck	−5	All; cr ×1.5, cut ×2	Severance ends combat. Major → HT or stun. Miss by 1 → Torso.
—	Vitals (target)	−3	imp/pi/tib-burn	×3 wound mult. Penetrating = major wound → HT or stun. Can't be crippled but can kill.
—	Heart (target)	−5	imp/pi/tib-burn	As Vitals (×3) + auto major wound on any penetration. Death very likely.

DEF ACTIVE DEFENCES & MULTI-DEFENCE

Dodge	Basic Speed + 3, drop fractions; −encumbrance; +1 Combat Reflexes; +Enhanced Dodge; +DB (shield).
Parry	Skill ÷ 2 + 3, drop fractions; weapon mod; +CR; +Enh Parry; retreat bonus. Off-hand −4 without Ambidexterity.
Block	Block skill ÷ 2 + 3, drop fractions; +CR; +Enh Block; +DB. Needs ready shield, buckler, or cloak.
Parry vs Ranged HOUSE	Lightsaber Parry can parry ranged attacks (blaster bolts, slug rounds) as a **normal Parry** — same skill, no special modes. Other weapons cannot parry ranged.
Multi-def RAW	**−4 cumulative** per defence after the first (−4, −8, −12…). Hard ceiling.
Multi-def TbaM/WM	**−2 cumulative** per defence after first — ONLY for the trained weapon/skill. Others use RAW −4.

RES DAMAGE RESOLUTION — STEP BY STEP

1. **Roll basic damage** from the weapon (e.g. 2d+1). This number drives both injury and knockback.
2. **Subtract armour:** penetration = damage − (DR ÷ Armour Divisor). If DR ≥ that, nothing gets through (see Blunt Trauma). **AD** scales the armour, not the roll: standard **AD 1** = full DR · heavy blaster / military **AD 2** = half DR · ion **AD 5** (anti-droid) · disruptor **AD 10** · lightsaber **AD ∞** = ignores DR (vs non-cortosis).
3. **Apply wound multiplier** to penetration by damage type & location (see Damage Types): injury = penetration × mult. Vitals ×3, Skull ×4, etc.
4. **Resolve location effects:** crippling, major wound (> HP/2 → HT vs stun + knockdown), bleeding / cauterisation, knockback (below & in Hit Location).
5. **Subtract injury from HP** and apply shock, then check Reeling / Consciousness / Death as thresholds are crossed.

Worked: bolt rolls 8, target DR 6, weapon AD 2 → eff DR 3 → pen 5 → tib-burn ×1 = 5 HP. To Vitals: ×3 = 15 HP (major wound).

DMG DAMAGE TYPE EFFECTS & MULTIPLIERS

Multiplier applies to **penetration** (after DR). Living: meat & bone · Un-living: vehicles, droids, walls · Homogenous: solid mass.

TYPE	LIV	UN-L	HOM	NOTES
Burning burn	×1	×1	×1	Ignites flammables. Tight-beam burn (lasers) reaches eye/vitals; some AD 2.
Corrosion cor	×1	×1	×1	Acid. Erodes DR −1 per 5 dmg (permanent).
Crushing cr	×1	×1	×1	Blunt trauma. ×2 vs neck (snap/strangle). Easier knockback (full).
Cutting cut	×1.5	×1	×1.5	Severs limbs on a crippling injury. Knockback at half.
Fatigue fat	FP	FP	FP	FP damage, not HP. Stun bolts, tasers, exhaustion.
Impaling imp	×2	×1	×½	Spears, arrows, lightsabers (imp/burn). ×3 vitals. Limbs ×1 cap. No knockback.
Piercing pi−/pi/+/++	½/1/1.5/2	⅓/⅓/½/1	.1/⅓/⅓/½	Pistol → rifle → cannon. ×2 vitals from pi+ up. No knockback.
Toxic tox	×1	—	—	Radiation, poison, disease; bypasses DR partially (sealed armour stops it). Living only.

WND WOUNDS, CONDITIONS & DEATH

Shock (turn you lost HP)	Next turn: −(HP lost) to DX, IQ, skills — cap −4 (brain −8). High Pain Threshold ignores it.
Major Wound (> HP/2)	HT. Fail = stunned (lose turn, def −4, HT each turn); crit fail = unconscious. If standing, HT or knocked prone.
Reeling (HP ≤ ½)	Move & Dodge halved (round up) until healed above ½.
Consciousness (HP ≤ 0)	HT at start of each turn. Fail = unconscious. Success = may still act.
Death checks	HT at −1×, −2×, −3×, −4× HP or die (crit fail = die). Hard to Kill bonus. ≤ −5× = auto-dead; ≤ −10× = body destroyed.
FP fatigue	FP ≤ ⅓: Move/Dodge halved, ST halved for dmg, skills −2. FP ≤ 0: HT to act, DX/IQ halved. FP ≤ −1× = unconscious.
Mental stun	Lose next turn, def −4. IQ each turn to recover (CR +6, never freezes in surprise).

SPECIAL DAMAGE OUTCOMES

Knockback	Cr (full) & cut (half) only; **not** imp/pi. **1 m back per full multiple of (target ST−2)** in **basic damage** (before wound mult), whether or not it penetrates DR. Knocked 2+ m → roll best of DX/Acrobatics/Judo or fall prone (−1/m beyond 1st). Into a wall: 1 HP cr per metre not travelled.
Blunt Trauma	Flexible armour (vest, mesh, leather) that **stops** a hit still transmits **1 HP crushing per 5 pts stopped** (round down), ignoring DR. Rigid armour (plate, ceramic) does not. Not from energy/burn.
Bleeding	Triggers: NeckV/A, or any cut > ⅓ HP to a limb. Each turn HT or **lose 1 HP**; First Aid roll stops it. Lasts the engagement if untreated.
Cauterisation SW	Lightsaber wounds: full dmg & all effects but **no bleeding**; any sever/cripple is permanent (Force-heal/prosthetic only). Blaster bolts bleed at half rate; slugthrowers bleed normally.

RNG RANGED — MODIFIERS, COVER & BLASTER FIRE

Aim & Acc	+Acc on the shot after Aim; extra Aim +1 each, cap +2 over Acc. Move & Attack: skill cap, −2 or −Bulk (worse).
Recoil & Bulk	−Rcl per shot after the first in a turn. −Bulk firing from M&A, snap-shot w/o Aim, or close combat.
Target Move	−1 cross-walk, −2 cross-run, −3 sprint / erratic. (Target SM & range from the To-Hit table.)
Concealment	Smoke / dim / fog −2 to −4 (to-hit only). Pitch dark: Wild Swing cap 9 / Hearing. Hurt / heavily hurt: −3 / −4 to all skills.
Suppression HOUSE	RoF 5+ into a hex / doorway / short line (no specific target). Anyone in or crossing must **Dodge vs your effective skill or be hit**. Consumes the full burst.

HOUSE **Ion-class skills:** Ion Pistol · Ion Rifle · Ion Gunner (DX/A, no Blasters default). Ion = AD 5 vs droids/shields, near-harmless to organics. Droid & ship rules → **Side B**.

COVER — DR ABSORBED BEFORE DAMAGE REACHES YOU (SEPARATE FROM TO-HIT PENALTY)

Wooden door / fence	DR 3	bolts pass after 1st hit
Sandbag wall	DR 12	absorbs bolts; degrades
Brick wall	DR 8–15	cracks under fire
Concrete wall	DR 24–100	heavy weapons eventually
Permacrete / durasteel SW	DR 50–200	structural
Hardened steel / blast door	DR 70+	heavy weapons / explosives

RATE OF FIRE — BURST HIT BONUS & RESOLUTION

ROF	BONUS
1–4	+0
5–8	+1
9–16	+2
17–49	+3
50–99	+4

On a hit, bolts connecting = [margin + Rcl] + 1, capped at RoF. Defender rolls one defence; further incoming hits use the multi-def penalty (RAW −4 each). **Stun bolt:** dmg to **FP** (fat); FP ≤ 0 → HT to act; ≤ −1×FP → KO. Sealed/hardened armour may stop it.

KEY **AoA** All-Out Attack · **AoD** All-Out Defence · **M&A** Move and Attack · **QC** Quick Contest · **QA** Quick Action · **SR** Special Reaction · **AD** Armour Divisor · **DR** Damage Resistance · **TbaM** Trained by a Master · **WM** Weapon Master · **CR** Combat Reflexes · **FP** Fatigue Points · **HP** Hit Points · **SM** Size Modifier · **BL** Basic Lift (ST²÷5 kg) · **DB** Defence Bonus · **Rcl** Recoil · **RoF** Rate of Fire · **Acc** weapon Accuracy (Aim bonus) · **ST/DX/IQ/HT** the four attributes · SW Star Wars rule · HOUSE campaign house rule · MA Martial Arts technique.

SHIP & DROID OPERATIONS

GURPS 4E · KNIGHTS OF THE OLD REPUBLIC CAMPAIGN · SIDE B

COMPONENTS ARE THE HEALTH — NO HIT-POINT POOLS
RECONCILED TO **THE FORCE & THE FIGHT — COMPLETE COMPENDIUM**, PART VIII
NEW DAMAGE THRESHOLD SYSTEM · SHIP DEFENCE & SCALE · PER-PART EFFECTS · REPAIR LADDER · DROID COUNTERS

ATK SHIP-TO-SHIP — TO HIT

Roll 3d6 ≤ Gunner + target SM + range mod − tracking − your evasive −2 (+ RoF bonus).

TARGET SIZE MODIFIER (ADDED TO YOUR ROLL)		
Speeder / swoop / walker	+2	Hnd +1…+2
Starfighter / interceptor / bomber	+4	Hnd 0…+2
Gunship / shuttle	+5	Hnd −1
Freighter / transport	+6	Hnd −2
Corvette	+8	Hnd −3
Frigate	+9	Hnd −4
Cruiser / capital	+10	Hnd −5

Capital batteries (turbolasers & kin): **−6 vs SM ≤ +5** targets — slow tracking. Point-defence is exempt (that's its job).
Position advantage — win a Pilot Quick Contest for rear/flank: **+2 to hit**, target Dodge **−2**.
Missiles & locks — warheads need a sensor lock (Electronics Op [Sensors], 1 turn). Target dodges the warhead at **−2**; each countermeasure system forces a lock re-roll or gives +2 Dodge.
Point defence — each PD mount rolls Gunnery 1/turn vs an inbound missile (destroyed on success) or strafing fighter (takes a light-laser hit, 6d×2).

DEF DEFENDING — VEHICLE DODGE

Dodge = 3 + (Pilot ÷ 3, round down) + Hnd — roll vs each attack you can see coming.

Evasive action	**+2 Dodge, −2 your attacks** until your next turn. Declare on your turn.
Barrel roll	Pilot −1; **+2 Dodge vs one** incoming attack.
Guided warhead	Dodge at **−2** (countermeasures help — see ATK).
Capital hull	Hnd −4/−5: effectively **no Dodge**. Capital defence = shields, armour, point-defence.

Ace (Pilot 16) in an interceptor (Hnd +2): Dodge **10**, evasive **12**. The sheet shows your number live on each ship card.

DMG COMPONENTS ARE THE HEALTH

Per hit: ① **shields soak** (SP pool) → ② **DR of the struck system − weapon AP** (1:1, no dividing; exposed mounts — engines, weapons, sensors — take only **40% of hull DR**) → ③ penetrating damage vs **Damage Threshold (DT)**:

< DT	Superficial — scorch marks, no effect.
≥ DT	Struck system degrades **one step**: ● Intact → ◐ Damaged → ✕ Destroyed.
≥ 2 × DT	**Two steps** — an intact system is destroyed outright.
≥ 6 × DT	vs **full hull DR − AP**: **VAPORISED**. No parts roll, nothing to salvage. (What a turbolaser does to a fighter. Never ion.)

DAMAGE THRESHOLD BY CLASS	
Speeders / swoops / walkers	DT 8
Starfighters / interceptors / bombers	DT 10
Shuttles / freighters / gunships	DT 15
Corvettes / frigates	DT 25
Cruisers & capitals	DT 40

How ships die: Hull ✕ = breach, lost in 1d min (evacuate) · Reactor ✕ = dead in space · Sublight ✕ = adrift · or the crit table. Mission-kill ≠ destruction: board it, salvage it, or finish it.

WPN SHIP WEAPONS — DAMAGE · AP

Light laser cannon	6d×2	dogfight, high RoF
Laser cannon	6d×3	the fighter standard
Heavy laser cannon	6d×4 · AP 5	bullies freighters
Quad laser (turret)	6d×3 · RoF 4	the freighter's teeth
Ion cannon	6d×2 ion	anti-shield / anti-system
Ion railgun	6d×3 ion · AP 5	shield-stripper
Concussion missile	6d×4 · AP 10	guided; needs lock
Proton torpedo	6d×6 · AP 20	the trench-run shot
Thermite torpedo	6d×4 · AP 80	armour-melter
Slug railgun	6d×6 · AP 20	sniper hull-killer
Point-defence laser	6d×2	anti-fighter / anti-missile
Turbolaser (light → heavy)	6d×10–×20	capital batteries

Expected fight lengths (yardstick): fighter duel 3–4 hits · wing vs freighter 3–6 · torpedo run vs corvette ~6 · squadron vs frigate ~5 turns · capital duel 4–11 volleys · fighter guns vs frigate hull: never — burn the **exposed mounts** instead.

SYS PER-PART EFFECTS — ◐ DAMAGED / ✕ DESTROYED

Hull	◐ integrity compromised · ✕ **BREACH — lost in 1d min**
Armour	◐ DR −25% · ✕ DR 0 (facing)
Sublight	◐ Move −25%, −1 Pilot evasions · ✕ Move 0, adrift
Shields	◐ cap −50%, regen halved · ✕ SP 0, none
Reactor	◐ weapons every 2nd turn, Move −25% · ✕ **dead in space**
Weapon	◐ −1 hit, RoF −25% · ✕ mount gone
Sensors	◐ −2 detect · ✕ eyeball only, −6, no auto-targeting
Targeting	◐ −1 attacks · ✕ −4 attacks, no missile lock
Hyperdrive	◐ Astrogation −4, double jump time · ✕ no jump
Astrogation	◐ Astrogation −2 · ✕ −8, manual plotting
Life Support	◐ 1 hr air · ✕ 5 min — suit up
ECM	◐ lose defence bonus · ✕ no jamming, no decoys
Crew / Cargo	◐ section compromised · ✕ vented / contents lost

Exposed (40% DR): Sublight, Weapon, Sensors. Called shots use the Aim penalties on the sheet's parts table.

FIX REPAIR LADDER & SHIELD REGEN

Damage control (in combat)	Mechanic roll, 1/turn: jury-rig one ◐ system back into action — the next hit on it re-breaks it. ✕ can't be fixed in combat. One try per system per scene.
Astromech	As above, 1 roll/min — its own attempts, on top of the crew's.
Field patch	15–60 min per system: one ✕ → ◐, or make a jury-rig permanent.
Workshop	~6 h/system to ● (fighter); ~1 day/system (freighter); days/section (capital).
Shield regen	**10% of cap per turn** out of direct fire (round up). Emitters ◐: half. Generator ✕: none.

DRD DROIDS — TWO WAYS DOWN

HP track (personal scale): droids have HP, no FP, no shock, no bleeding — full effect until destroyed. **Component track** (surgical): call the shot — droid DR (÷AD) → penetrating vs droid DT, same ◐/✕ ladder. **Core ✕ or Power ✕ = droid inert.**

DROID DAMAGE THRESHOLD	
Civilian chassis (protocol, medical)	DT 6
Labour (loader, mining, construction)	DT 8
Battle / war / assassin / guard	DT 10

COUNTERS — WHAT ACTUALLY WORKS	
Blasters AD 1	Fine vs civilian plating; **bounce off war droids** (DR 16+). Use the right tool.
Ion AD 5	**The droid-killer.** Ion rifle drops a war droid in ~7 hits; arcs past plating into systems.
Disruptor AD 10, ×4 wound	Illegal for a reason. Even beskar droids fall in 4–6 hits.
Beskar droids	Mando War Droid: **÷2 damage divisor** after DR · Crusader shell: **÷3**. Blunts everything.

Condition ladder: Shutdown (reversible — restraining bolt, ion stun, power cut) → Disabled (◐ systems, repairable) → Destroyed (Core/Power ✕ or −HP×1). Repair: Droid Mechanic + kit, ~10 min per 2d+4 HP or one system.

ION ION & DISRUPTOR — SPECIAL RULES

Ion vs shields	Counts **double** against SP pools.
Ion vs structure	Never degrades Hull or Armour; **never vaporises**. Arcs into systems — disables for boarding & salvage.
Ion vs droids	Always AD 5 regardless of plating; near-harmless to organics.
Ion skills HOUSE	Separate skills, DX/A: **Ion Pistol · Ion Rifle · Ion Gunner**. No default from Blasters — the arc handles differently.
Disruptor	AD 10, ×4 wounding. Vile, restricted, and loud about it.

The doctrine: blasters kill people · ion kills machines & shields · disruptors kill everything and your reputation. Disable, board, profit.

KEY **DT** Damage Threshold (cripples a system at ≥DT through) · **SP** Shield Points (ablative pool) · **Hnd** Handling (maneuver & Dodge modifier) · **AP** Armour Piercing — weapon ignores N points of DR (ship combat is otherwise 1:1; **AD** +5 applies only when ship guns hit personal-scale targets) · **DR** Damage Resistance · **SM** Size Modifier (added to attacker's roll) · **RoF** Rate of Fire · **PD** Point-Defence · **ECM** electronic countermeasures / jamming · ● Intact · ◐ Damaged · ✕ Destroyed · **6d×N** roll 6 dice, multiply by N · SW Star Wars rule · HOUSE campaign house rule.

Source of truth: **The Force & the Fight — Complete Compendium**, Part VIII (*Components Are the Health* · *Ship-to-Ship Defence & Scale*). Where this sheet and the compendium differ, the compendium governs.

NEW Side B added: full component-health ship & droid combat — simulation-verified against the sheet's ⚔ / ⛨ tools. Metric throughout (1 m = 1 hex).
