

ONETURN	① Choose a maneuver. Your move + your action (table at left).	② Attacking? Roll 3d6. You hit if the roll is ≤ your effective skill.	③ They defend. Defender picks ONE — Dodge, Parry or Block — 3d6 ≤ it.	④ Undefended hit → roll damage on the weapon's dice.	⑤ –DR, xtype, apply to HP. Then check shock / major wound.	🔄 Next combatant in Basic-Speed order.
---------	---	---	---	--	--	--

THE TURN — COMBAT MANEUVERS					
Turn order: highest Basic Speed (HT+DX)+4 first; tie → higher DX, then 1d6. Surprised side acts after & may only Do Nothing with no active defences (DR still applies); Combat Reflexes negates the freeze. Pick ONE maneuver (Blocks ①–③), then layer modifiers (④ attacks; ⑤–⑥ defences). Use: M melee · R ranged · MA Martial-Arts technique					
MANEUVER	MODIFIER	USE	NOTES	MOVE	DEFENCE
⓪ ALL-OUT ATTACK — sacrifice ALL active defences for a better attack. Step or full Move. HOUSE offensive QA / SR & Fast-Draw stay legal, defensive ones do not.					
AoA (Determined)	M+R		+4 to hit. Single attack.	Half	None
AoA (Strong)	M		+2 dmg or +1/die if better. Thr/sw only — not force swords.	Half	None
AoA (Double)	M+R		Two attacks, same/different targets. May swap one slot for Rapid Strike, DWA, or Feint.	Half	None
AoA (Feint)	M		Free Feint, then a normal Attack with the margin applying. Same target.	Half	None
AoA (Long) MA	M		Reach +1 for the attack, no hit penalty. Swing –2 dmg / –1 per die.	Half	None
⓪ ALL-OUT DEFENCE — sacrifice your attack to focus on defence. Step permitted.					
AoD (Increased)	M+R		+2 to ONE chosen Active Defence.	Step	+2 one
AoD (Increased) — Balanced MA	M+R		Alternative: +1 to TWO different defence types instead of +2 to one.	Step	+1 two
AoD (Double)	M+R		Two Active Defences vs the SAME attack. Different types, or two parries w/ different weapons. Not two Dodges. 2nd takes multi-def penalty.	Step	2 def/atk
⓪ STANDARD MANEUVERS — normal one-attack or non-attack maneuvers. Defences normal.					
Attack	M+R		One attack with any ready weapon. May add Block ⓪ modifiers.	Step	Any
Defensive Attack MA	M		One attack at –2 dmg (or –1/die, worse). Pick ONE: +1 to one defence; OR +2 vs Leg Grapples & +2 DX vs falling on kicks; OR parry with same balanced weapon used to attack.	Step	+1 one
Committed Attack (Det.) MA	M		One melee attack +2 hit . Step or 2 steps (2nd → –2 hit). Attacking limb can't defend; other defences –2. No retreat.	Step x2	–2 / 0
Committed Attack (Strong) MA	M		One melee attack at normal skill, +1 dmg . Thr/sw — not force swords. Movement & defence as Det.	Step x2	–2 / 0
Move and Attack	M+R		Full Move + one attack. Melee skill cap 9 (or DX+2). Ranged –2 or Bulk (worse). No retreat. No Rapid Strike.	Full	Dodge/Block
Aim	R		+Acc 1st turn, +1 each 2nd & 3rd (cap +2 over Acc). Spoiled if you defend (Will roll to retain).	Step	Any*
Evaluate	M		+1 (1t) / +2 (2t) / +3 (3t+) on next attack. Cancels foe Deceptive on YOUR defence until you defence until you	Step	Any
Feint	M		QC best Melee/Unarmed/Cloak (or DX) vs their best weapon skill or DX. Your winning margin = the penalty to ONE of their active defences vs your next attack (next turn). Defensive Feint: that penalty instead applies to their next attack on you.	Step	Any
Move	M+R		Run at full Move. +1 sprint bonus on consecutive running turns.	Full	Any
Change Posture	M+R		Stand / sit / kneel / crawl / prone / face-up.	None	Any
Ready	M+R		Draw, reload, change grip/reach, clear a jam, prepare an item.	Step	Any
Concentrate SW	M+R		Sustained mental effort — required for Force powers tagged Concentrate. If hit, Will roll or lose concentration AND any FP spent.	Step	Any*
Wait	M+R		Wait for a trigger; fires before the triggering action. Move & Defence per the specified action.	None*	*
Do Nothing	M+R		Start of combat or when stunned. Defence –4 if stunned. HT/IQ to recover.	None	Any*
⓪ ATTACK MODIFIERS — layer WITHIN an Attack / Committed / AoA / Defensive / M&A maneuver. Melee-only. Deceptive, Rapid Strike, Beat, Ruse, Combination.					
Deceptive Attack	M		–2 hit → –1 to foe's defence (no cap beyond skill). Stacks w/ Targeted, Committed, AoA. Contradicts Telegraphic. Evaluate cancels it on YOUR defence (net 0).	*	*
Dual-Weapon Attack	M+R		Two attacks, one per hand, each –4 (–8 off-hand without Ambidexterity / Off-Hand Training). Cannot combine w/ Rapid Strike same turn.	*	*
Rapid Strike	M		Two attacks, single weapon (or unarmed), each –6 (–3 w/ Tb&M or WM). Melee only — for ranged use RoF.	*	*
Targeted Attack	M+R		Aim for a specific hit location (penalty per chart). Wound effects apply there. Repeating same target → +1 to their defence on 3rd+ try.	*	*
Telegraphic Attack	M+R		+4 hit ; target gets +2 defence . Stacks w/ Rapid Strike, Targeted, Committed. Contradicts Deceptive.	*	*
Wild Swing	M+R		Skill capped at 9 ; attack a target you cannot clearly see (rear, dark, obscured).	*	*
Beat MA	M		Within Feint. QC your ST-based weapon skill vs their ST/DX weapon skill. Win → ONE named defence penalised by your margin , vs ALL attackers, until end of your next turn. Requires you parried them (or vice-versa) last turn, or they're grappled.	*	*
Ruse MA	M		Within Feint. QC your IQ-based weapon skill vs their Per-skill / DX-skill / Tactics. Win → ONE defence penalised by your margin , vs your next attack only.	*	*
Combination MA	M		Trained multi-strike sequence. Buys off Rapid Strike penalty per level. One per maneuver max. Not w/ M&A.	*	*
⓪ DEFENCE OPTIONS — avoid, mitigate, or eat the attack. Once per turn unless noted.					
Retreat (Any)	M+R		Step 1 m back. +3 Dodge or fencing/Box/Judo/Karate Parry; +1 other Parry/Block. Costs your step. Not vs a grapple.	*	*
Acrobatic Dodge	M+R		Roll Acrobatics → +2 Dodge on success, –2 on failure. Crit fail: fall. Once/turn.	*	*
Feverish Defence MA	M+R		Spend 1 FP → +2 to one defence. Once/turn. Not during Committed/AoA. Crit fail: 1 HP injury.	*	*
Sacrificial Dodge	M+R		Dodge –2; take a hit for an adjacent ally. Cannot use after AoA/ Committed/M&A. Ends prone.	*	*
Movement Defences MA	M		Dive&Drop –1 + retreat; end prone. Sideslip: step sideways same dist, –1 + retreat (standing). Slip: step CLOSER, –2 + retreat; counters Stop Thrust at –1.	*	*
Defensive Grip MA	M		[WEAPON only] Hold weapon close: +1 Parry vs frontal; –2 to your attacks; reach –1. Switch grip = a Ready.	*	*
⓪ COUNTER-ATTACK & PUNISHING DEFENCES — defences that strike back or set up your next attack with a penalty on the foe					
Riposte MA	M		[armed/unarmed] On a parry, accept –1 to –4 off your Parry (floor 8 Enh Parry & CR); success → your first attack next turn on that foe forces them to defend at the SAME penalty you took (take –3 → they're at –3). Full penalty hits the matching defence (parried weapon=Parry, shield=Block, unarmed=Dodge); half (round down) on their other defences. Riposte IS a Deceptive Attack — don't stack Deceptive.	*	*
Counterattack MA	M+R		[armed/unarmed] Hard tech, default skill –5. After a successful Dodge/Parry/Block → your next attack on that foe (this turn or next) penalises their defence by a flat –2 (no defensive risk like Riposte, but smaller & fixed). Can't combine with Riposte same turn.	*	*
Stop Hit MA	M		[armed/unarmed] Wait variant. Both attack on trigger; lower-margin attacker defends at –1 (–3 if parrying with the attacking weapon). Stops melee charges.	*	*
Stop Thrust	M		[thrust wpn / punch] Wait variant vs a charging foe. +1 dmg per 2 m of their Move, max +3. Knockdown interrupts their attack.	*	*
Aggressive Parry MA	M		[armed OR unarmed] Parry –2 → strike the attacking limb (uses their HP for crippling). Unarmed = thrust crushing; armed = your weapon's thrust (sabers cut clean). Crit fail: self-injury.	*	*
Hand-Clap Parry MA	M		[UNARMED only] Karate –2; bare hands parry AND grapple a small weapon (knives, fists). Needs a free hand. Not polearms / sabers.	*	*

ATK MAKING AN ATTACK — THE UNIVERSAL ROLL	
Every attack is 3d6, roll-under. Work out your effective skill , roll 3d6, and you hit if the roll is ≤ that number. Low is good — a 3 or 4 is always spectacular.	
Effective skill	Base weapon / unarmed skill + bonuses – penalties (posture, Deceptive, range, cover, light...). Melee mods here; ranged → Page 2 .
Hit / miss	Roll ≤ skill = hit. Roll > skill = miss.
Margin	Effective skill — your roll. Drives burst hits, Feints & locks.
Who defends	Target gets one free active defence per attack (a Reaction). Extra defences that turn: –4 each (–2 if trained).
Crit ranges	Crit hit : 3–4 always · 5 if skill ≥15 · 6 if skill ≥16. Crit miss : 18 always · 17 if skill ≤15. Full table →

CRIT CRITICAL SUCCESS & FAILURE	
Crit success : nat 3–4 always; nat 5 if skill ≥ 15; nat 6 if skill ≥ 16. Crit failure : nat 18 always; nat 17 if skill ≤ 15; margin of failure ≥ 10.	
Defence crit : auto-defend + attacker is off-balance (–2 DX, defences & skills until they Ready). Crit Parry = free Aggressive Parry to attacking limb; Crit Dodge +1 m free step; Crit Block drives attacker back. Crit fail (def): auto-fail + attacker may roll Crit Hit.	
Skill/HT/Will/IQ crit: success = ideal/quick resist; fail = worst/lingering (2x FP on Force SW).	
HOUSE Crit Hit → Counter-Crit Defence. On a critical hit the defender MAY still attempt an active defence, but it succeeds ONLY on a critical defence of its own (nat 3–4; 5 at def ≥ 15; 6 at def ≥ 16) — else the hit lands. DR still applies ; damage rolled normally then modified per the row. Extra defences take the multi-def penalty & each needs its own crit. Lightsaber Parry SW vs a critical bolt follows the same rule.	

3D	CRITICAL HIT	CRITICAL MISS
3–4	3: Max dmg + auto major wound (HT –5 vs stun). 4: Triple damage.	3: Stab self, full dmg. 4: Drop weapon + trip prone (DX–4).
5	Double damage.	Hit yourself for half damage.
6	Damage ignores DR.	Drop your weapon (Ready to recover).
7	Defender stunned (HT to recover, def –4 while stunned).	Whiff — lose your attack.
8–10	Normal damage, no extra effect.	Lose your attack; turn over.
11	Defender drops weapon.	You drop your weapon.
12	Knockdown — defender prone.	Fall prone (DX or Acro to avoid).
13–14	Defender stunned (HT each turn).	Hit random ally in melee range.
15–16	Major wound regardless of dmg. HT or stun + knockdown.	Weapon damaged — HT or breaks next use.
17–18	17: HT at –5 or die. 18: Outright kill.	17: Weapon broken. 18: Broken + fall + self-injury.

HOUSE TURN ECONOMY — QUICK ACTION & SPECIAL REACTION	
Quick Action (1/turn): alongside your maneuver. Force Push/Pull (full FP), Fast-Draw, single-touch device activation. Defensive QA forbidden during AoA; offensive QA + Fast-Draw still permitted.	
Special Reaction (1/turn, Force-only, full FP): Force Push/Pull as a triggered Reaction on top of an active defence — does not consume the defence slot. Defensive use (redirect threat) forbidden during AoA; offensive use (shove/pull foe) legal during AoA.	

DEF ACTIVE DEFENCES & MULTI-DEFENCE	
Dodge	Basic Speed + 3, drop fractions; –encumbrance; +1 Combat Reflexes; +Enhanced Dodge; +DB (shield).
Parry	Skill + 2 + 3, drop fractions; weapon mod; +CR; +Enh Parry; retreat bonus. Off-hand –4 without Ambidexterity.
Block	Block skill + 2 + 3, drop fractions; +CR; +Enh Block; +DB. Needs ready shield, buckler, or cloak.
Parry vs Ranged HOUSE	Lightsaber Parry parries ranged attacks (blaster bolts, slug rounds) as a normal Parry — same skill, no special modes. It also always parries Force Lightning , but a successful parry forms a Lightning Lock (see Saber Lock box) instead of simply scattering it. Other weapons cannot parry ranged.
Multi-def RAW	–4 cumulative per defence after the first (–4, –8, –12...). Hard ceiling.
Multi-def Tb&M/WM	–2 cumulative per defence after first — ONLY for the trained weapon/skill. Others use RAW –4.
Side facing	–2 to all active defences.
Rear facing	If unaware: NO defence — hit lands. Must first become aware (Per roll, CR, or Danger Sense): then –4. 360° Vision SW : as side, –2.

GRP GRAPPLING		
Close-combat range only. Grappled = –4 DX, can't move freely. While grappled: no retreat; no parry w/ grappled arm; no Sacrificial Dodge.		
ACTION	ROLL	EFFECT
Grapple	DX/grappling skill vs target's active defence	Target –4 DX, can't move freely. Two hands on one body part: +3.
Takedown (req Grapple)	QC your ST or DX (best) vs theirs	Win = foe prone, grapple persists. Tie/loss = foe stands.
Pin (req Takedown)	QC ST vs ST. +3 two hands, +3 size, –4 grappled	Win = foe helpless; attackers hit automatically.
Choke (neck)	Neck grapple + QC ST (+3 2H) vs HT	Cr dmg (margin = HP), bypasses torso DR. Carotid: 2nd rd → HT or KO. Trachea: 10 s → HT or KO.
Strike / Break Free	Strike –4; Break Free QC ST vs theirs	Strike: dmg only, grapple persists. Break Free: win = escape + free step; costs full turn.

POS POSTURE			
POSTURE	ATK/DEF	TO HIT YOU · MOVE	
Standing	0 / 0	Normal · Full Move	
Crouching	–2/0	–2 ranged to hit you (from outside C) · Move x½	
Kneeling	–2/–2	–2 to hit you · Move x½	
Sitting	–2/–2	–2 to hit you · Move 0 (M&A 1 hex)	
Crawling	–4/–3	+2 close / –2 ranged to hit you · Move 1 hex	
Prone / Supine	–4/–3	+3 close / –2 ranged to hit you · no Move	

CMB COMBINATIONS & ACTION ECONOMY	
Your turn = ONE maneuver · + a free active defence vs each attack (a Reaction — no maneuver cost) · + Free Actions · + 1 Quick Action · + 1 Special Reaction (Force).	
ATTACK MOD	LAYERS WITH
Deceptive	Rapid Strike · Targeted · Committed · AoA. Not Telegraphic. Melee.
Telegraphic	Rapid Strike · Targeted · Committed. Not Deceptive. Melee.
Rapid Strike	Deceptive · Telegraphic · Targeted. –6 ea (–3 Tb&M/WM). Melee.
Targeted	Almost anything — melee & ranged Aim.
Feint/Beat/Ruse	Sets up your NEXT attack. Melee.
Dual-Weapon	Two ready weapons; off-hand –4 w/o Ambidexterity.
MANEUVER → ATTACKS · YOUR DEFENCE	
Attack	any + compatible mods · defend normally
Committed	Determined/Strong + Deceptive/Rapid/Targeted · limited defence, no retreat
All-Out Atk	Determined/Double/Strong/Long + mods · NO defence (offensive QA/SR + Fast-Draw legal)
Move & Atk	skill cap 9; Telegraphic ok · Dodge/Block only
All-Out Def	no attack · +2 one / +1 two / Double vs same attack
2nd+ defence/turn: –4 cumulative (–2 trained). Retreat on 1st defence vs a foe, all turn, costs step. Feverish (+2/1FP) & Acro Dodge : 1/turn, not in Committed/AoA.	

SW HOW FORCE POWERS ARE DEFENDED	
Every power card lists its Defence . The buckets:	
Dodge / Parry / Block	Physical Force attacks — telekinetic throws, hurled objects, Force-thrown sabers, and Force Lightning (lit saber → Lightning Lock). Normal active defences apply.
Resist — contest	Mind & body intrusions, never dodged: QC vs Will (fear, domination, illusion, mental horror), HT (bodily pain/agony, stun, drain), or ST (telekinetic grapple). Mind Block / Mind Shield always apply vs any mind-affecting power.
Force-on-Force	Powers attacking the Force connection (Drain Force, Sever, etc.): resist with Will or your <i>Force skill if higher</i> — that option is Force-on-Force only.
No defence	Self/ally buffs, senses, and powers stating "none" simply take effect.

HOUSE SABER LOCK & LIGHTNING LOCK	
Forms two ways: (1) On purpose — declare as your Attack if you parried them (or they parried you) last turn; the foe may break away by retreating a hex unless walled / pinned. (2) By accident — when two sabers clash (or a saber & a saber-resistant blade: beskar / cortosis / phrik / songsteel), roll 1d ; on a 6 the blades catch . Ordinary blades are sheared — they never lock.	
EACH TURN, PICK ONE	EFFECT
Force / sword contest	QC of your Force attribute (ST Torrent · DX Velocity · Will Vessel · HT Tempered) — non-Force: higher of ST/DX. +1 per 2 ST over foe ; +1 two-handed; +1/pt SM; –2 bad footing. Not Lightsaber skill — the saber's up-to +20 would auto-win.
Break away	Spend your turn, step out, end the lock. If the foe did not also break, they get the <i>Bend-the-guard</i> result on you as you turn aside.
Bear down	All-Out push: +2 to the contest this turn, but no active defence until your next turn. Win by 1–2 bend guard (foe –2 defences vs you / shove 1 m) · 3–5 break guard (free attack +2 / shove + knockdown / disarm +2) · 6+ overpower (knockback + prone, or free attack +4) · tie blades stay locked, both –2 vs everyone else. Crit fail: fall prone, foe gets the 6+ result.
SW Lightning Lock : a lit saber always parries Force Lightning; a successful parry forms a lock instead of scattering it. Sustained QC each turn — attacker rolls Force Lightning skill, defender rolls their Force attribute (+1 Tempered Blade, or Tutaminis if trained). Both pay FP (defender 1 FP per 4 dmg held). Defender wins by 6+ → redirect the storm at the caster (–2 their defence); loses by 3+ → full damage. Either may break off (defender Dodges clear).	

ONESHOT	① Aim (optional). Adds +Acc to next turn's shot.	② Effective skill = weapon skill + size + speed – range – cover/posture/light.	③ Roll 3d6 ≤ skill.	④ Target reacts: Dodge, dive or take cover. No Parry/Block vs bolts (except saber Deflect).	⑤ Burst hits = 1 + [margin ÷ Rcl] bolts (cap RoF).	⑥ Each bolt: –cover DR, then armour DR + AD.
----------------	--	---	--------------------------------------	---	--	--

HIT RANGED TO-HIT — SIZE · SPEED · RANGE					
Effective skill = weapon skill + Size mod + Speed bonus – Range penalty + posture / cover / light. Distance & speed in metres (1 m = 1 hex; 1 hex/turn = 1 m/s). E.g. trooper (SM 0), still, at 30 m → –7 net.					
SIZE	SM	SPEED	MOD	RANGE	MOD
20 m +	+6	≤ 2 m/s	0	≤ 2 m	0
10–15 m	+4/5	3 m/s	+1	3 m	–2
5–7 m	+2/3	5–7 m/s	+2/3	5–7 m	–3
3 m	+1	10 m/s	+4	10 m	–4
2 m	0	15 m/s	+5	15 m	–5
1.5 m	–1	20 m/s	+6	20 m	–6
1 m	–2	30 m/s	+7	30 m	–7
0.6 m	–3	50 m/s	+8	50 m	–8
0.5 m	–4	70 m/s	+9	70 m	–9
0.3 m	–5	100 m/s	+10	100 m	–10
Big = + (easier); small = –. Add to skill. Human 0 · speeder +3 · AT-ST +5 · droid –2.		Faster = + (easier to track). Add to skill. On-foot ≈ no bonus; matters for vehicles.		Farther = – (harder). Subtract from skill. 150 –11 · 200 –12 · 300 –13 · 500 –14 · 1 km –16.	

RNG RANGED — MODIFIERS, COVER & BLASTER FIRE

Aim & Acc

+Acc on the shot after Aim; extra Aim +1 each, cap +2 over Acc. Move & Attack: skill cap, –2 or –Bulk (worse).

Recoil & Bulk

–Rcl per shot after the first in a turn. –Bulk firing from M&A, snap-shot w/o Aim, or close combat.

Target Move

–1 cross-walk, –2 cross-run, –3 sprint / erratic. (Target SM & range from the To-Hit table.)

Concealment

Smoke / dim / fog –2 to –4 (to-hit only). Pitch dark: Wild Swing cap 9 / Hearing. Hurt / heavily hurt: –3 / –4 to all skills.

Suppression

HOUSE

RoF 5+ into a hex / doorway / short line (no specific target). Anyone in or crossing must **Dodge vs your effective skill or be hit**. Consumes the full burst.

HOUSE

Ion-class skills: Ion Pistol · Ion Rifle · Ion Gunner (DX/A, no Blasters default). Ion = AD 5 vs droids/shields, near-harmless to organics. Droid & ship rules → **Side B**.

COVER — DR ABSORBED BEFORE DAMAGE REACHES YOU (SEPARATE FROM TO-HIT PENALTY)

Wooden door / fence

DR 3

bolts pass after 1st hit

Sandbag wall

DR 12

absorbs bolts; degrades

Brick wall

DR 8–15

cracks under fire

Concrete wall

DR 24–100

heavy weapons eventually

Permacrete / durasteel

SW

DR 50–200

structural

Hardened steel / blast door

DR 70+

heavy weapons / explosives

RATE OF FIRE — BURST HIT BONUS & RESOLUTION

ROF

BONUS

RESOLUTION

1–4

+0

On a hit, bolts connecting = [margin ÷ Rcl] + 1, capped at RoF. Defender rolls one defence; further incoming hits use the multi-def penalty (RAW –4 each). **Stun bolt:** dmg to **FP** (fat); FP ≤ 0 → HT to act; ≤ –1×FP → KO. Sealed/hardened armour may stop it.

5–8

+1

9–16

+2

17–49

+3

50–99

+4

100+

+5 /2x

EX WORKED EXAMPLE — CARBINE BURST

Blaster carbine, **RoF 10**, **Rcl 2**, skill 14. Target at 10 m (–4) and walking (–1) → effective skill **9**, plus the **+1** RoF-10 burst bonus = **10**.
Roll 8 → hit; margin = 10 – 8 = **2**. Bolts that connect = 1 + [2 ÷ 2] = **2 bolts**. Roll each bolt's damage on its own; subtract the target's DR (÷ the weapon's AD) from each.

BND RANGE BANDS — WHAT EACH DISTANCE FEELS LIKE		
The to-hit penalty comes from the Range table at left. These bands tell you how a fight at that distance actually plays. 1 hex = 1 m .		
RANGE	PEN.	BAND & HOW IT PLAYS
0–2 hex	0	Point-blank. Close-combat & Bulk penalties apply; most defences available.
3–5 hex	–2/3	Brawling distance. Pistols ideal; long arms suffer Bulk up close.
7–10 hex	–3/4	Room-to-room. Burst fire devastating; cover is everything.
15–20 hex	–5/6	Hall / open room. Where most blaster fights settle. Carbines = rifles.
30–50 m	–7/8	Outdoor close. Aim essential; pistols fall off past 30 m.
70–100 m	–9/10	Medium. Rifle territory; multi-turn Aim. Many pistols hit their ½D here.
Farther: 150 m –11 · 200 m –12 · 300 m –13 · 500 m –14 · 1 km –16.		
RNG+ RANGED-ONLY RULES		
Forbidden w/ ranged	No Rapid Strike, Deceptive, Feint, Beat, Ruse or Combination. For more hits use Rate of Fire (bursts) — not melee tricks.	
Move and Attack	Full Move + fire: –2 or the weapon's Bulk , whichever is worse. (The skill-9 cap is melee-only.)	
Into a melee	–4 to single out a target in a scrum; miss badly → you may hit a random fighter in that hex (GM call).	
Gun at arm's reach	You can fire at reach C, but you can be parried, grabbed or grappled ; long arms suffer Bulk. Pistols are the close choice.	
Aim	+Acc on next turn's shot; +1 per extra Aim (cap +2). Brace & stay still: a further +1 . Lose all Aim if you move or get hit.	
Two guns	One per hand: off-hand at –4 without Ambidexterity.	
DEF DEFENDING AGAINST RANGED		
You must see it	No defence against a shot you're unaware of (rear/surprise). Aware → you may react.	
Dodge / dive	Dodge the shot, or dive for cover / drop prone (Movement Defence) to break line-of-fire.	
No Parry/Block	You can't Parry or Block a bolt — except a lit lightsaber's Deflect (and a few Force powers).	
Cover vs concealment	Cover = DR off the damage. Concealment = –to-hit only.	

½D HALF-DAMAGE & MAX RANGE · COVER VS CONCEALMENT	
½D range	Listed on each weapon card. Past ½D, halve the damage — the bolt has bled off, the slug has slowed.
Max range	Beyond it the shot cannot reach . Most blasters: ½D ≈ ½ of Max.
Cover	Physical DR between you and the bolt. Subtract cover DR from the damage (see DR table). Does NOT change the to-hit roll.
Concealment	Can't be seen clearly (smoke, dark, fog): –to-hit only , gives NO DR. Total whiteout → attacker uses Wild Swing (skill 9).
Partial cover	Only part of you exposed → attacker eats the hit-location penalty for that part; cover DR still applies if the bolt clips the barrier.
THR THROWING & SCATTER	
Skill	Throwing or DX. A grenade is SM 0; use the Size/Speed/Range penalties (Page 2).
Range	Roughly ST × 3.5 m easy (½D), ST × 5 m max. A strong arm throws farther.
Miss → scatter	A missed throw scatters : it lands (margin of failure) hexes away in a random direction (roll 1d for the facing). Work falloff from where it actually lands.
Use the timing	End-of-turn blasts let foes dive this turn; instant (thermal det) gives no warning; fixed-delay can be lobbed to land first.
Cook-off / throw-back	Hold a timed grenade to shorten the fuse (risky). A foe may spend a Ready to throw back one that hasn't gone off.

WPN COMMON RANGED WEAPONS — QUICK STATS								
Dmg = basic damage & type · AD = armour divisor (higher punches through more DR) · Acc = aim bonus · RoF = shots per turn · Rcl = recoil (–per extra hit in a burst) · ½D / Max = range in metres (past ½D, halve damage; past Max, can't reach) · Shots = before reload. Full catalogue lives on the character sheet. SW								
WEAPON	DMG	AD	ACC	ROF	RCL	½D / MAX	SHOTS	NOTES
Hold-out blaster	1d+2 burn	1	1	3	2	50 / 500	30	Concealable backup; +Holdout.
Blaster pistol	3d burn	1	3	3	2	100 / 1200	50	The everyday sidearm.
Heavy blaster pistol	4d burn	3	3	3	3	120 / 1500	30	Punches plate (AD 3).
Blaster carbine	4d+1 burn	1	4	10	2	200 / 1800	40	Trooper workhorse; bursts.
Blaster rifle	5d burn	1	5	3	2	500 / 2500	50	Line-infantry standard.
Assault blaster rifle	5d+2 burn	1	5	10	2	500 / 2500	50	Full-auto; stun setting.
Blaster sniper rifle	6d+2 burn	1	6+2	1	2	1000 / 4000	20	Scoped — reward for Aim.
Ion pistol (droids)	2d+2 ion	5	2	3	2	50 / 600	30	Anti-droid / anti-shield.
Disruptor pistol	3d×2 cor ×4	10	2	1	2	30 / 300	10	Illegal . Vaporises; AD 10.
Heavy slug pistol	3d–1 pi+	1	2	3	4	120 / 1800	8	Kinetic — beats energy-weave.
Slug sniper rifle	6d+1 pi+	1	6	1	4	800 / 4500	10	Kinetic — beats reflex.
Mando repeating blaster	6d+6 burn	3	4	15	7	500 / 1000	100	Suppression; high Rcl.
GRN GRENADES, CHARGES & MINES — AT A GLANCE								
(N) after the dice = armour divisor . ex = explosive (uses falloff, left). [Nd] frag = secondary shrapnel, pi (ignores shields). Timing: end-of-turn = goes off at the turn's close · fixed = can't be rushed · instant = on landing. Full list on the sheet & compendium Codex VI. SW								
ITEM	BLAST (CENTRE)					RADIUS	TIMING	
Fragmentation grenade	6d(1) cr ex + [3d] frag					3 m	end-of-turn	
Concussion grenade	5d cr ex (knockback)					3 m	end-of-turn	
Plasma / concussion	6d(2) burn ex					3 m	end-of-turn	
Thermal detonator	6d×3(2) burn ex					4 m	instant	
Ion grenade (droids)	6d(5) ion ex					3 m	2-sec	
Stun grenade	HT–4 aff (stun 1d t)					3 m	end-of-turn	
Flash-bang	HT–4 aff (blind+deaf 1d t)					4 m	end-of-turn	
Smoke grenade	concealment cloud					4 m	end-of-turn	
Cryoban grenade	4d(1) cr + slow					3 m	2-sec	
Incendiary grenade	4d burn ex + fire field					3 m	2-sec	
Gas grenade (acid)	3d cor/turn cloud					4 m	2–3-sec	
Sonic grenade	5d(0.5) son ex + HT–3 stun					4 m	2-sec	
Seismic charge	6d×3(2) cr ex (huge)					6 m	3-sec arm	
Plasma/thermal charge	6d×4(3) burn ex					5 m	3-sec arm	

RES DAMAGE RESOLUTION — STEP BY STEP

1	Roll basic damage	from the weapon (e.g. 2d+1). This number drives both injury and knockback.
2	Subtract armour:	penetration = damage – (DR ÷ Armour Divisor). If DR ≥ that, nothing gets through (see Blunt Trauma). AD scales the armour, not the roll: standard AD 1 = full DR · heavy blaster / military AD 2 = half DR · ion AD 5 (anti-droid) · disruptor AD 10 · lightsaber AD ∞ = ignores DR (vs non-cortosis).
3	Apply wound multiplier	to penetration by damage type & location (see Damage Types): injury = penetration × mult. Vitals x3, Skull x4, etc.
4	Resolve location effects:	crippling, major wound (> HP/2 → HT vs stun + knockdown), bleeding / cauterisation, knockback (below & in Hit Location).
5	Subtract injury from HP	and apply shock, then check Reeling / Consciousness / Death as thresholds are crossed.

Worked: bolt rolls 8, target DR 6, weapon AD 2 → eff DR 3 → pen 5 → tib-burn x1 = 5 HP. To Vitals: x3 = 15 HP (major wound).

DMG DAMAGE TYPE EFFECTS & MULTIPLIERS

Multiplier applies to **penetration** (after DR). Living: meat & bone · Un-living: vehicles, droids, walls · Homogenous: solid mass.

TYPE	LIV	UN-L	HOM	NOTES
Burning burn	x1	x1	x1	Ignites flammables. Surface hits only — can't target Eye/Vitals (see Tight-Beam). Flamethrowers, fire fields, explosions.
Tight-Beam tib-burn	x1	x1	x1	SW Blaster bolts & lasers. Focused beam qualifies as a penetration type — reaches Eye (x4) / Vitals / Heart like imp/pi. Standard AD 1; heavy / military AD 2. Cauterises (half-rate bleed).
Corrosion cor	x1	x1	x1	Acid. Erodes DR –1 per 5 dmg (permanent).
Crushing cr	x1	x1	x1	Blunt trauma. x2 vs neck (snap/strangle). Easier knockback (full).
Cutting cut	x1.5	x1	x1.5	Severs limbs on a crippling injury. Knockback at half.
Fatigue fat	FP	FP	FP	FP damage, not HP. Stun bolts, tasers, exhaustion.
Impaling imp	x2	x1	x½	Spears, arrows, lightsabers (imp/burn). x3 vitals. Limbs x1 cap. No knockback.
Piercing pi—/pi+/+/++	½/1/1.5/2	½%/½%/½/1	.1%/½%/½/½	Pistol → rifle → cannon. x2 vitals from pi+ up. No knockback.
Toxic tox	x1	—	—	Radiation, poison, disease; bypasses DR partially (sealed armour stops it). Living only.

WND WOUNDS, CONDITIONS & DEATH

Shock (turn you lost HP)	Next turn: –(HP lost) to DX, IQ, skills — cap –4 (brain –8). High Pain Threshold ignores it.
Major Wound (> HP/2)	HT. Fail = stunned (lose turn, def –4, HT each turn); crit fail = unconscious. If standing, HT or knocked prone.
Reeling (HP ≤ ½)	Move & Dodge halved (round up) until healed above ½.
Consciousness (HP ≤ 0)	HT at start of each turn. Fail = unconscious. Success = may still act.
Death checks	HT at –1x, –2x, –3x, –4x HP or die (crit fail = die). Hard to Kill bonus. ≤ –5x = auto-dead; ≤ –10x = body destroyed.
FP fatigue	FP ≤ ½: Move/Dodge halved, ST halved for dmg, skills –2. FP ≤ 0: HT to act, DX/IQ halved. FP ≤ –1x = unconscious.
Mental stun	Lose next turn, def –4. IQ each turn to recover (CR +6, never freezes in surprise).

SPECIAL DAMAGE OUTCOMES

Knockback	Cr (full) & cut (half) only; not imp/pi. 1 m back per full multiple of (target ST–2) in basic damage (before wound mult), whether or not it penetrates DR. Knocked 2+ m → roll best of DX/Acrobatcs/Judo or fall prone (–1/m beyond 1st). Into a wall: 1 HP cr per metre not travelled.
Blunt Trauma	Flexible armour (vest, mesh, leather) that stops a hit still transmits 1 HP crushing per 5 pts stopped (round down), ignoring DR. Rigid armour (plate, ceramic) does not. Not from energy/burn.
Bleeding	Triggers: Neck/V/A, or any cut > ½ HP to a limb. Each turn HT or lose 1 HP ; First Aid roll stops it. Lasts the engagement if untreated.
Cauterisation SW	Lightsaber wounds: full dmg & all effects but no bleeding ; any sever/cripple is permanent (Force-heal/prosthetic only). Blaster bolts bleed at half rate; slugthrowers bleed normally.

STS STATUS EFFECTS — QUICK REFERENCE

Stunned	No actions; defences –4. Recover: HT roll (physical) or IQ (mental) at end of each turn. Combat Reflexes +6 vs mental freeze.
Shock	–1 per HP lost (cap –4) to DX/IQ skills on your <i>next turn only</i> . Not defences. High Pain Threshold negates.
Knocked down	Major wound / Face / Skull hit: HT roll or fall prone & drop what's held (fail by 5+: also stunned). Standing = a Change Posture maneuver.
Bleeding	Vitals/Neck wounds: HT each turn or lose 1 HP until tended (First Aid) — lightsaber & blaster burns cauterise (no bleed).
On Fire SW	1d–3 burn per turn (min 1) until out: drop & roll (DX) or smother (Ready action). Sealed armour protects until its DR is breached; fire fields burn 1d/turn.
Poisoned	HT roll to resist (at the toxin's listed number); fail = listed damage, often delayed or staged. Antitox injector: +3 HT & neutralises one known toxin. Sealed armour stops contact gas; cloth doesn't.
Electrified / Stun bolt	Stun settings & sonic: aff HT–N — fail = stunned (recover as above); damage goes to FP not HP . Electrified surfaces/shock-whips: HT or stunned + 1 FP per contact turn.
Suffocating	HT every 15 sec ; each fail = 1 FP. At 0 FP: 1 HP/turn until air. Vacuum adds 1d–1 burn per 5 sec (unsealed).
Droids	No shock, no bleeding, no FP — full effect until destroyed. Droid "stun" = ion stagger : lose 1 turn, defences –4, HT each turn to reboot.

Sheet automation: conditions toggle on the Combat tab and feed their penalties into the Skill Roller automatically.

HIT-LOCATION DIAGRAM

DO-NOT-MODIFY REFERENCE PLATE

EYES (-9)
Miss by 1 hits skull or face
Cap = 1 hit only
All skull vs DR

HEAD (-5)
Hit by 1
1 - Ears
2 - Head
3 - Face
4 - Neck
5 - Jaw

BODY
Hit by 1
1 - Neck
2 - Torso
3 - Arm
4 - Leg
5 - Foot

VITALS (-3)
Heart, Lung, Kidney, etc.
Tightbeam burn x2.
Imp & pi x3

MAJOR WOUND
Any single injury = 12 HP
Cripples both also counts
As a Major Wound.
Major wound means a hit you must make a HT check to avoid knockdown and stun.

LESS THAN 1/3 HP
Miss 1/3 and below

0 HP OR LESS:
Miss a HT check: roll turn to remain conscious (1 to HT) before paralyzing, and at beginning of each turn you choose to take any action including an active defense.

-1 x HP
Miss a HT check or die.

-5 x HP
Character dies immediately.

3-4 SKULL (-7)
Miss by 1 hits torso (DR+2)
Cap = 1 hit only
All vs knockdown at 10

5 FACE (-5)
Miss by 1 hits torso
All vs knockdown at 5

17-18 NECK (-5)
Miss by 1 hits torso
Cap = 1 hit only
Chen x1.5 cutting x2

8 RIGHT ARM (-2)
Miss by 1 hits torso
Cap = 1 hit only
Down = 12 HP cripples

9-10 TORSO (-4)
Miss by 1 hits torso
Cap = 1 hit only
Down = 12 HP cripples

12 LEFT ARM (-2)
Miss by 1 hits torso
Cap = 1 hit only
Down = 12 HP cripples

11 GROIN (-3)
Miss by 1 hits torso
Cap = 1 hit only
Down = 12 HP cripples

15 HAND (-4)
Miss by 1 hits torso
Cap = 1 hit only
Down = 12 HP cripples

6-7 RIGHT LEG (-2)
Miss by 1 hits torso
Cap = 1 hit only
Down = 12 HP cripples

13-14 LEFT LEG (-2)
Miss by 1 hits torso
Cap = 1 hit only
Down = 12 HP cripples

16 FOOT (-4)
Miss by 1 hits torso
Cap = 1 hit only
Down = 12 HP cripples

LOC HIT LOCATION & CRIPPLING (HUMANOID)

3D	LOCATION	HIT	DMG TYPES	CRIPPLE / EFFECT
3-4	Skull / Brain	–7	All	Skull DR 2. Penetrating x4 wound. Major → HT –10 or unconscious + knockdown. Miss by 1 → Torso.
5	Face	–5	All	Crits read one row better. Cr → knockdown HT –5. Cor → HT or blinded. Miss by 1 → Torso.
—	Eye (target)	–9	imp/pi/tib-burn	Cripple HP/10 = blinded that side. x4, no DR. Both = blind. Force Sense remains SW .
6-7 13-14	Leg	–2	All; imp/pi+/pi++ x1	Cripple HP/2. Move 1, fall prone (DX to avoid), no kick. Dmg capped at limb HP. Cut cripple = severance.
8 · 12	Arm	–2	All; imp/pi+/pi+++ x1	Cripple HP/2. Drop everything held; no attack/parry/grapple w/ limb. Cut cripple = severance.
9-10	Torso	0	All — standard	Standard injury. Within Torso: Vitals –3, Heart –5 (below).
11	Groin	–3	All	Cut/pi/imp = auto major wound. Males: cr x2 shock (cap –8). Stun, –5 DX for 2d turns. Knockdown HT –5.
—	Spine (target)	–8	cr/cut/imp/pi/tib-burn	Cripples both legs (lower) OR both arms (upper). Severance = paralysis below the cut.
15	Hand	–4	All; imp/pi+/pi+++ x1	Cripple HP/3. Drop everything: cannot grasp or wield. 2H needs both hands.

AOE EXPLOSIONS & AREA OF EFFECT

6d GRENADE — FALLOFF BY HEX

The falloff rule. An explosion deals its **full listed damage at the centre hex**, then weakens as it spreads: **damage = centre + (3 × hexes away)**. So 1 hex out is +3, 2 hexes +6, 3 hexes +9. The table below is pre-divided — just read across to the victim's hex.

Then armour. Apply the weapon's armour divisor & the victim's DR **after** falloff. Concussion is **cr** (plate resists); frag & shrapnel are **pi** (ignore shields); plasma/thermal is **burn** (energy). **SW**

PRE-COMPUTED FALLOFF — AVERAGE DAMAGE AT EACH HEX

CENTRE	HEX 0	1 (+3)	2 (+6)	3 (+9)	4	5-6	TYPICAL WEAPONS
3d (10)	10	~3	~2	~1	—	—	Cryoban, incendiary, sonic grenade
6d (21)	21	~7	~3	~2	~1	—	Frag, plasma / concussion, ion grenade
6d×2 (42)	42	~14	~7	~5	~3	~2	Proximity mine, wrist rocket
6d×3 (63)	63	~21	~10	~7	~5	~4	Thermal detonator, limpet, rocket launcher
6d×4 (84)	84	~28	~14	~9	~7	~5	Plasma / thermal charge, missile tube

Dive for cover → See it coming → **Dodge or Acrobatics** to dive. **Each hex you move out steps you down one column**. Diving prone in-hex doesn't cut damage but can put cover between you & the blast.

Concussion stun Even a non-wounding blast: **HT vs the centre damage** or be stunned (lose next turn). Brain-damage cap –8 if very close.

Fixed-radius clouds Gas/smoke/flash-bang fill a set radius at **uniform effect** (no falloff): flash-bang ~2 hex · gas ~3 · smoke ~4. HT resists; sealed armour negates gas.

Contained blast Sealed room/corridor — the blast can't vent: **shift one hex gentler** (everyone takes ≥ the hex-2 value). Why a thermal det "guts a room".

VEL VELOCITY & “SMASH” DAMAGE — FALLS, SLAMS & COLLISIONS

Speed and mass hurt. These are all crushing and all cause knockback . 1 hex = 1 m, 1 turn = 1 s , so hexes-per-turn = m/s.						
FALLING — 1D–3 CRUSHING PER METRE FALLEN						
FALL	2 M	5 M	10 M	20 M	50 M	100 M+
Damage (cr)	2d–6	5d–15	10d–30	20d–60	~25	~50
Typical	~1	~3	~5	~10	~25	60+ cap
Soften it: best of DX, Acrobatics or Judo — success halves, critical quarters. Into water: half (low falls); clean entry (Acrobatics/Swim) halves again. Terminal velocity ~200 m/s → 200 m+ = max.						
SLAM, SHOVE & CHARGE (ON FOOT)						
Slam / charge	Move and Attack into a foe (to-hit skill capped at 9, or DX+2). Damage = your thrust crushing . Both of you can be knocked down.					
Slam stance SW	+3 to hit & knockback, counts ST +4 for slam damage, and may stun a smaller foe . A rocket-pack burn-charge adds +2 .					
Shove	Quick Contest of ST — win = push the foe back 1 hex (more on a big margin). Force Push does this at range.					
VEHICLE RAM & COLLISION — (HP ÷ 5) × (RELATIVE SPEED IN HEX/TURN ÷ 10)						
VEHICLE HP ÷ SPEED	10	20	40	80		
40 · speeder bike		8	16	32		64
80 · landspeeder		16	32	64		128
150 · airspeeder		30	60	120		240
300 · walker / tank		60	120	240		480
Both take it	Ram damage applies to both vehicles — a bike ramming at 40 destroys itself. Ramming is a desperation move.					
Glancing	Side-swipe = half (DX/Pilot turns a head-on into a glance).					
Into a wall	Ramming a stationary object — vehicle takes full , the wall shrugs it off (soft ground: half).					
Hitting a person	Full ram damage; they roll DX/Acrobatcs at –2 (fast) / –4 (extreme) to dive aside for half.					
Force-thrown object	Driven into a wall: 1d per 2 hexes of momentum lost.					

ATK SHIP-TO-SHIP — TO HIT		
Roll 3d6 ≤ Gunner + target SM + range mod — tracking — your evasive −2 (+ RoF bonus).		
TARGET SIZE MODIFIER (ADDED TO YOUR ROLL)		
Speeder / swoop / walker	+2	Hnd +1...+2
Starfighter / interceptor / bomber	+4	Hnd 0...+2
Gunship / shuttle	+5	Hnd −1
Freighter / transport	+6	Hnd −2
Corvette	+8	Hnd −3
Frigate	+9	Hnd −4
Cruiser / capital	+10	Hnd −5
Capital batteries (turbolasers & kin): −6 vs SM ≤ +5 targets — slow tracking. Point-defence is exempt (that's its job).		
Position advantage — win a Pilot Quick Contest for rear/flank: +2 to hit, target Dodge −2.		
Missiles & locks — warheads need a sensor lock (Electronics Op [Sensors], 1 turn). Target dodges the warhead at −2; each countermeasure system forces a lock re-roll or gives +2 Dodge.		
Point defence — each PD mount rolls Gunnery 1/turn vs an inbound missile (destroyed on success) or strafing fighter (takes a light-laser hit, 6d×2).		

DEF DEFENDING — VEHICLE DODGE		
Dodge = 3 + (Pilot ÷ 3, round down) + Hnd — roll vs each attack you can see coming.		
Evasive action	+2 Dodge, −2 your attacks until your next turn. Declare on your turn.	
Barrel roll	Pilot −1; +2 Dodge vs one incoming attack.	
Guided warhead	Dodge at −2 (countermeasures help — see ATK).	
Capital hull	Hnd −4/−5: effectively no Dodge. Capital defence = shields, armour, point-defence.	
Ace (Pilot 16) in an interceptor (Hnd +2): Dodge 10, evasive 12. The sheet shows your number live on each ship card.		

DMG COMPONENTS ARE THE HEALTH		
Per hit: ① shields soak (SP pool) → ② DR of the struck system — weapon AP (1:1, no dividing: exposed mounts — engines, weapons, sensors — take only 40% of hull DR) → ③ penetrating damage vs Damage Threshold (DT):		
< DT	Superficial — scorch marks, no effect.	
≥ DT	Struck system degrades one step: ● Intact → ④ Damaged → × Destroyed.	
≥ 2 × DT	Two steps — an intact system is destroyed outright.	
≥ 6 × DT	vs full hull DR — AP: VAPORISED. No parts roll, nothing to salvage. (What a turbolaser does to a fighter. Never ion.)	
DAMAGE THRESHOLD BY CLASS		
Speeders / swoops / walkers		DT 8
Starfighters / interceptors / bombers		DT 10
Shuttles / freighters / gunships		DT 15
Corvettes / frigates		DT 25
Cruisers & capitals		DT 40
How ships die: Hull × = breach, lost in 1d min (evacuate) · Reactor × = dead in space · Sublight × = adrift · or the crit table. Mission-kill ≠ destruction: board it, salvage it, or finish it.		

WPN SHIP WEAPONS — DAMAGE · AP		
Light laser cannon	6d×2	dogfight, high RoF
Laser cannon	6d×3	the fighter standard
Heavy laser cannon	6d×4 · AP 5	bullies freighters
Quad laser (turret)	6d×3 · RoF 4	the freighter's teeth
Ion cannon	6d×2 ion	anti-shield / anti-system
Ion railgun	6d×3 ion · AP 5	shield-stripper
Concussion missile	6d×4 · AP 10	guided; needs lock
Proton torpedo	6d×6 · AP 20	the trench-run shot
Thermite torpedo	6d×4 · AP 80	armour-melter
Slug railgun	6d×6 · AP 20	sniper hull-killer
Point-defence laser	6d×2	anti-fighter / anti-missile
Turbolaser (light → heavy)	6d×10−×20	capital batteries
Neuralyzer array SW	— · 3-turn lock	bypasses shields; crew HT−4 or out. Droids immune
Expected fight lengths (yardstick): fighter duel 3-4 hits · wing vs freighter 3-6 · torpedo run vs corvette −6 · squadron vs frigate −5 turns · capital duel 4-11 volleys · fighter guns vs frigate hull: never — burn the exposed mounts instead.		

SYS PER-PART EFFECTS — ④ DAMAGED / × DESTROYED	
Hull	④ integrity compromised · × BREACH — lost in 1d min
Armour	④ DR −25% · × DR 0 (facing)
Sublight	④ Move −25%, −1 Pilot evasions · × Move 0, adrift
Shields	④ cap −50%, regen halved · × SP 0, none
Reactor	④ weapons every 2nd turn, Move −25% · × dead in space
Weapon	④ −1 hit, RoF −25% · × mount gone
Sensors	④ −2 detect · × eyeball only, −6, no auto-targeting
Targeting	④ −1 attacks · × −4 attacks, no missile lock
Hyperdrive	④ Astrogation −4, double jump time · × no jump
Astrogation	④ Astrogation −2 · × −8, manual plotting
Life Support	④ 1 hr air · × 5 min — suit up
ECM	④ lose defence bonus · × no jamming, no decoys
Crew / Cargo	④ section compromised · × vented / contents lost
Exposed (40% DR): Sublight, Weapon, Sensors. Called shots use the Aim penalties on the sheet's parts table.	

FIX REPAIR LADDER & SHIELD REGEN	
Damage control (in combat)	Mechanic roll, 1/turn: jury-rig one ④ system back into action — the next hit on it re-breaks it. × can't be fixed in combat. One try per system per scene.
Astromech	As above, 1 roll/min — its own attempts, on top of the crew's.
Field patch	15-60 min per system: one × → ④, or make a jury-rig permanent.
Workshop	~6 h/system to ● (fighter); ~1 day/system (freighter); days/section (capital).
Shield regen	10% of cap per turn out of direct fire (round up). Emitters ④: half. Generator ×: none.

DRD DROIDS — TWO WAYS DOWN	
HP track (personal scale): droids have HP, no FP, no shock, no bleeding — full effect until destroyed. Component track (surgical): call the shot — droid DR (+AD) → penetrating vs droid DT, same ④/x ladder. Core × or Power × = droid inert.	
DROID DAMAGE THRESHOLD	
Civilian chassis (protocol, medical)	DT 6
Labour (loader, mining, construction)	DT 8
Battle / war / assassin / guard	DT 10
COUNTERS — WHAT ACTUALLY WORKS	
Blasters AD 1	Fine vs civilian plating; bounce off war droids (DR 16+). Use the right tool.
Ion AD 5	The droid-killer. Ion rifle drops a war droid in ~7 hits; arcs past plating into systems.
Disruptor AD 10, x4 wound	Illegal for a reason. Even beskar droids fall in 4-6 hits.
Beskar droids	Mando War Droid: +2 damage divisor after DR · Crusader shell: +3. Blunts everything.
Condition ladder: Shutdown (reversible — restraining bolt, ion stun, power cut) → Disabled (④ systems, repairable) → Destroyed (Core/Power × or −HP×1). Repair: Droid Mechanic + kit, ~10 min per 2d+4 HP or one system.	

ION ION & DISRUPTOR — SPECIAL RULES	
Ion vs shields	Counts double against SP pools.
Ion vs structure	Never degrades Hull or Armour; never vaporises. Arcs into systems — disables for boarding & salvage.
Ion vs droids	Always AD 5 regardless of plating; near-harmless to organics.
Ion skills HOUSE	Separate skills, DX/A: Ion Pistol · Ion Rifle · Ion Gunner. No default from Blasters — the arc handles differently.
Disruptor	AD 10, x4 wounding. Vile, restricted, and loud about it.
The doctrine: blasters kill people · ion kills machines & shields · disruptors kill everything and your reputation. Disable, board, profit.
